About Kwiin Ava

Ava is a Visual Artist/Content Creator/Licensed Hair Stylist with a goal of inspiring the black diaspora to love, appreciate, and embrace their beautiful, natural hair. She does this through creative expression of her natural coils, shape-shifting her crown into designs never seen before on human hair. From hearts, stars, flowers, cats, and butterflies, to cosplay of some of the worlds most famous anime and cartoon characters, such as Garnet, Steven Universe characters, and Marge Simpson. At 19 years old, she became the creator of this trend. Amongst the billions of users on the internet, she created a lane of her own that no one had tapped into. There is no limitation to the form which Ava will shape her hair to show the world just how magical the diaspora really is.
