Wire Mesh Partitions

OWNER'S OPERATIONS AND MAINTENANCE

Please be advised that our final shop drawings serve the purpose of Operation and Maintenance manuals as well as As-Builts. These were included with the shipment of wire mesh partitions.

Our wire mesh partitions require minimal maintenance. The only maintenance is to use a dry cloth to wipe any dust and residue off the material, as needed.

Feel free to give me a call if you have any questions or if you need additional information.

Regards,

Reggie Sehgal
Account Executive
