

Traverse Pipeline

Project Facts

Location:
**Agua Dulce, TX
to Katy, TX**

Length:
152 miles

Construction timeline:
**Start: 2026
Ready: 2027**

Test pressure:
1.5x MAOP

Operating pressure:
1,440psi*
*pounds per square-inch

Mainline diameter:
42”

Jobs:
900
Skilled workers during construction

Product:
Natural Gas

Volume:
2.4 bcf/d
Energy equivalent to powering
~24.6 million homes daily.

Right of way:
**86% Parallel
Existing Utilities**

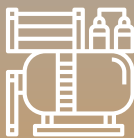

Total project investment:
\$1 Billion

Shut off valves:
9

Yearly local tax revenue:
~\$10.6 Million¹

Compressor stations:
3

[1] Words such as “anticipated,” “expected,” “targeted,” “projected,” “estimated,” and similar expressions are intended to identify forward-looking statements. These forward-looking statements rely on a number of assumptions concerning future events and are subject to a number of uncertainties, factors and risks, many of which are outside the control of the Company, which could cause results to differ materially from those expected by management of the Company.
