## **DON'T LET DAMAGED SPRAY NOZZLES COST YOU TIME AND MONEY!**

*Introducing the New TipGuard™ Spray Tip  
Protection System from Greenleaf Technologies.*

*Greenleaf Technologies  
AirMix Nozzle with TipGuard*

*Greenleaf Technologies  
AirMix Nozzle w/o TipGuard*

*Stack of AirMix Nozzles  
with TipGuards*

It's easy to damage spray nozzles when you're running hard and fast to get a field sprayed before a storm hits or you run out of daylight. That's why it pays to equip your sprayer with Greenleaf AirMix® nozzles with our new TipGuard™ Spray Tip Protection System. The TipGuard System protects spray nozzles from damage caused by hard ground, fence posts, irrigation systems and other obstacles. Best of all, our AirMix nozzles with the TipGuard System are no more expensive than comparable nozzles *without* tip protection.

So when it's time to order your spray nozzles this spring, make sure you specify Greenleaf AirMix nozzles with the new TipGuard Spray Tip Protection System. They're sure to save you time, trouble and money in the long run.
