ORIGINAL SOUNDTRACK & DVD SET

LIVE IN CLARKSDALE...OF COURSE

Where?

By now you know, Christopher Wyze & the Tellers “happened.” But a lot of other stuff happened first. Like the dream. And the “we’ll make an album” idea.

Albums need songs. And songs – blues songs – need stories. And so, maybe you had the album dream because you already had the stories. Yes? Check.

So, tell the dang stories. But realize maybe they’re yours or maybe they came from somewhere else. And maybe they belong to everybody, and you just got picked to tell them. If so, that makes you a teller. Which ain’t a bad thing. So, tell the damn stories.

OK, so you wrote lyrics. But what about music...the sound? Riiight. Somebody else knows, sitting right in front of you in Clarksdale.

And what about all the other stuff? You don’t have a band. You don’t have a studio. You don’t have a label. And you don’t...hell, you don’t hardly have a thing. But you do have stories. And music. And somehow, you and some others got tapped on the shoulder and given a job – to tell stories with your music as Christopher Wyze & the Tellers. And the other stuff? Done.

So, there you go. It all happened...as told...in the dream. And most of it...nobody really understands why or how. But we sure as hell understand where. Where it all began. Where it all happened. *Where?* Clarksdale, Mississippi.

So back to Clarksdale we went to make this album and film...

...on the first of October, 2024...to the Juke Joint Chapel...at the Shack Up Inn...in Clarksdale.

Christopher Wyze & the Tellers performed for a small group of *blues-o-philes* in one of the great, fun, amazing venues in the entire *blues-o-sphere*. We recorded and filmed it – and made a video that shows you around Clarksdale, the *where* for this adventure. And now, it’s in your hands.

Wherever you are, please enjoy Christopher Wyze & the Tellers, *Live in Clarksdale*.

OUTSIDE THE JUKE JOINT CHAPEL – SHACK UP INN – CLARKSDALE, MISS.

A photograph of a rustic, two-story wooden building with a corrugated metal roof. The building has a balcony with a metal railing on the upper floor. The scene is set against a sunset sky with warm orange and yellow hues. The building is surrounded by green grass and some bushes. The overall atmosphere is warm and nostalgic.
