

**White Oak Mountain Association, Inc.  
Roads, Grounds and Facilities Committee (RGF)  
PO Box 1106  
Columbus, NC 28722-1106**

**Invasive Species and Roadway Preservation Opt-Out Form**

I, \_\_\_\_\_ direct the RGF committee to not spray herbicide on my property(ies) as listed below.

Signing this directive, I understand that spraying the WOMA roadway to keep small plants and mosses from destroying the roadbed requires a prescribed herbicide which is promoted by the USDA and NC State University as solution for roadway maintenance.

I also understand that by signing this directive I assume responsibility to control the invasive species on the road right of ways on my property(ies), (30 feet from the centerline of roadway).

I will walk the roadway frontage with a RGF member to point out key terrain features and property lines of all property owned for this Opt-Out.

My Mountain Properties for Opt-Out Right of Way Spraying are:
