CRESTLINE®

CCL 150 - Type III

Why Choose Crestline

- Over 40 years of experience in emergency vehicle manufacturing
- Depth of knowledge based on a global background
- Committed to continuous improvement and quality products
- Continuously exploring new opportunities with innovation and technology
- Focus on safety begins with our aluminum extruded body construction and manufacturing process

Why Choose CCL 150

- Factory backed Lifetime Paint Warranty
- Multiplex Electrical System as standard feature
- Built to last with increased durability and reliability, lowering cost of ownership
- Designed for quick delivery and volume orders
- Standardization for numerous systems creating a familiar environment for EMS professionals and ease of maintenance for Fleet Operators
- Easy to maintain and remount

Brought to you exclusively by Demers Ambulances USA Inc. and their authorized Dealer partners.

Built to last, lowering *cost of lifecycle* ownership.

Leasing options available.

Safety and durability
at an affordable price.

Safety, Durability, Value.

Aluminum Extruded Body Construction

- 150" long X 96" wide body with 68" interior headroom, with 72" option available
- Fully certified: meets or exceeds KKK-A-1822F and GVS V2.0 standards, including GVS V2.0 remountable standards
- Lifetime Structural Warranty
- All aluminum extruded body, including cabinetry
- Industry leading payload and available storage space
- Promotes safety, aerodynamics and efficient remount process
- Design supports efficient workflow and ergonomics for EMS professionals and patients
- Floor construction designed for all cot systems

Aluminum Cabinets

- Highly durable and long lasting
- SAE Compliant Hardware
- Lighter than wood reducing overall weight
- Powder coated with antimicrobial coating for sanitary surfaces and easy cleaning

CrestCoat: Powder Coating Technology

- *Lifetime Paint Warranty
- Durable powder coating finish stands up over vehicle lifetime
- Lifetime warranty contributes towards lower cost
- Increases module life for remounting
- Environmentally friendly application

Multiplex Electrical System

- Robust multiplex system that is proven to reduce downtime and lower repair costs
- Supports remote diagnostics and preventative maintenance
- Fleet Operators do not require certified electrical technicians to perform maintenance or troubleshooting

Flush Mount Windows

- Automotive style windows for better visibility and corrosion resistance
- Lower repair costs
- Prevents leaks

Dual Entry Step

- Safer and easier access with first step lower to ground
- Exclusive ergonomic feature designed for ambulatory patients
- Eliminates repair with no moving parts

Rear Bumper Design

- Underbody design eliminates damage to module when bumper is impacted, reducing downtime for repair
- Kick-plate protects body from impact damage and road debris, provides protection and reduces corrosion

CrestClean

- Antimicrobial coating prevents and protects all interior surfaces from growth of bacteria and destructive microorganisms
- Enhances safety for patients and EMS professionals

4" Radius Corners

- Improved aerodynamics, increased fuel efficiency and improved handling

O₂ To Go

- Transport oxygen cylinders in a safe and effective manner
- Lightweight and trouble-free with no systems to maintain
- Reduces back injuries by eliminating the need to lift

Remount Advantage

- Remounting the extended life module on a new chassis saves thousands of dollars over purchasing a complete new ambulance
- Minimal vehicle downtime
- Eco-friendly solution
- Crestline Lifetime Structural Warranty applies
