

ABOUT US

The Elpison Foundation is a certified 501(c)(3) nonprofit foundation that exists to serve local communities and promote professional disc golf in Nebraska. We were founded by two professional disc golfers that have a heart for seeing disc golf grow throughout the state. Established in July of 2022, the Elpison Foundation operates with a vision of promoting professional disc golf in Nebraska while simultaneously giving back to the local communities supporting the sport. We will primarily fulfill this purpose by partnering with tournaments across the state to elevate the standards of tournaments and continue to bridge the gap between disc golfers and communities.
