

Job Title: Approved Electrician

NO AGENCIES

About us.

We are looking for candidates to join our Electrical and Renewable Technology team who are not only capable of working on customer sites, but who also have a desire to challenge themselves, learning new technologies and skills and progress within the company as opportunities arise. We actively encourage and support our employees with personal development and are focused on ensuring our employees are at the core of our future business model.

About the role.

This role is based out of our Gloucester Office with travel locally and around the UK as required.

We are looking for an Approved Electrician who has experience within the Industrial/ Commercial sector for at least 3 years post apprenticeship.

As an Approved Electrician you will be working either on your own or within a small team.

A part of this role will include installation of containment systems to house electrical and IT infrastructure.

Due to the nature of small team working, you will be expected to assist in other areas such as IT infrastructure (training will be given) and engaged as a team member providing technical expertise in design workshops, highlighting improvements and identifying opportunities for enhancements.

Experience Required:-

- Having experience with NICEIC certification would be an advantage.
- It is essential that you are a qualified electrician with 18th Edition.
- You must have at least 3 years electrical experience post apprenticeship.
- Having City & Guilds 2391 or equivalent qualification.
- You must be able to carry out periodic inspections.
- Good understanding of and attitude to Health & Safety requirements.
- Able to resolve any electrical issues that arise on site.
- Flexible attitude and motivated approach to work.
- Full Clean UK driving license (company vehicle provided).
- Good representation and appearance for the company at all times.
- Good attention to detail.
- Knowledge and ability to use a range of relevant tools and materials.
- Basic IT skills (including electronic submission of time sheets).
- Adapt to technical changes within the industry and attend training courses should they be required.
- ECS Gold Card required.
- IPAF – Desirable and full training will be given
- PASMA – Desirable and full training will be given
- Knowledge of EV charging units – desirable, not essential – full training will be given

- SSSTS Accreditation – desirable, not essential
- Flexibility to work outside of normal working hours where required and stay away from home for short periods throughout the working week.

Key Skills:-

A proven history working as a Commercial/ Industrial Electrician

Required education: Full Electrical Apprenticeship, C&G 2391, 18th Edition, and AM2,

Required experience: Electrician – 3 years

Required ECS Gold Card

Full UK Driving Licence

Security clearance or a willingness to undergo clearance preferred.

What you will get from us:-

- Competitive Salary.
- Company vehicle provided.
- Uniform.
- Company Pension Scheme
- Social Events.
- 25 Days Holiday Plus Bank Holidays,
- This opening within the business is a great opportunity for an Electrician who is keen to learn specialist disciplines within the industry
