✓ LOCAL & EXPERIENCED TECHNICIANS KEEPING YOUR COMPANY EMPOWERED

SERVICES WE OFFER

MANAGED SERVICE PROVIDER

We specialize in managing company workstations, networks, servers, and much more at a fixed rate.

PAY AS YOU GO SUPPORT

Pay by the hour for any of our time or services with no commitment or monthly billing. When it comes to the dependable IT support you're going to need, a strong relationship with Duke City Networks will be there to empower your organization.

Managed Cybersecurity

We can help you prevent Cybersecurity attacks with our Risk Assessments, Vulnerability Scans, and Remediations. All of which comply with HIPPA, PCI and Cyber Insurance standards.

AROUND THE CLOCK SUPPORT

We're available to fix your urgent issues around the clock -24/7/365

REMOTE MONITORING

Our monitoring system provides an extra level of assurance to our clients who depend heavily on their systems. Our software agent monitors, updates, troubleshoots and alerts any issues that may arise on your systems and network.

VOIP PHONE SYSTEMS

We provide simple business communications. Keeping teams and customers connected is essential. Our suite of reliable, easy-to-use communication and collaboration tools help you do just that.

ONSITE/REMOTE SUPPORT

With our remote capabilities, we can remote onto your device and resolve the most common and uncommon IT issues for you. For tasks that cannot be completed remotely, we'll send a technician to your location.

NETWORK SECURITY

We protect your business network by reviewing, monitoring, and maintaining technology usage.

ENDPOINT SECURITY

With the best available antivirus software, we will help protect all of your workstations and servers.

BACKUP & DISASTER RECOVERY

We help you with a data backup plan for continuous data protection, and a disaster recovery strategy to protect you in any situation you may encounter.

IT CONSULTING

With our services, you'll be able to simplify the way you use the technology you count on every day. Not having to worry about the state of your technology, you can focus on more important things, like your business.
