

Putting the payments in Payments Hub.

Whether you do business in person or online, Payments Hub has everything you need to get paid right from your computer.

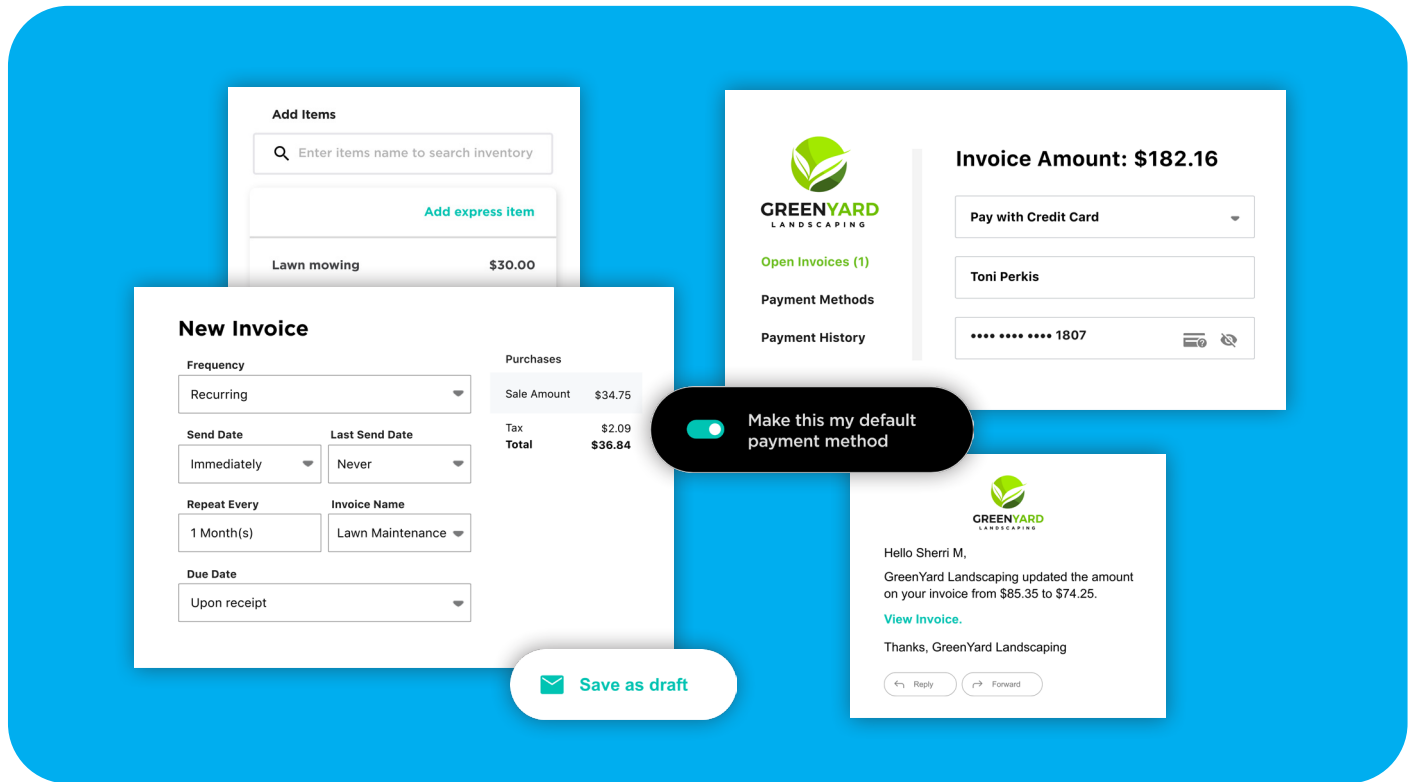

Built for YOUR business.

- ✓ Customize receipts, invoices, and the customer payment portal with your own logo, brand color, and more!
- ✓ Create engagement opportunities by displaying your social media profiles.
- ✓ Stay in the know with optional alerts specific to invoices payment status.

No hardware needed.

- ✓ Key in credit card information or use a customer's card on file on the Virtual Terminal.
- ✓ Send email or SMS text invoices and let your customer pay online.
- ✓ Customers can keep cards on file to simplify sales and get paid on time.

Give customers the capability.

- ✓ Allow customers to pay invoices, manage saved payment methods, and view their payment history directly from their customer payment portal.
- ✓ Customers can select a default payment method and enable autopay for recurring invoices.
- ✓ Automatic alerts will notify customers of any changes to their invoice activity, including failed payments, payment amount updates, canceled invoices, and more.

Invoicing for every instance.

- ✓ Enter a custom invoice amount or make it itemized with your inventory.
- ✓ Create a one-time invoice or set up a series of recurring invoices with a repeat frequency of your choosing.
- ✓ Save an invoice as a draft or schedule an invoice to send at a later date.
- ✓ Edit payment amounts when changes are necessary.
