

Portchester Community School

Mathematics Vision

Successful students who

- Are independent in their learning.
- Research topics independently to either consolidate or extend learning.
 - Apply their mathematical skills in a variety of different contexts.
 - Are aware of their strengths and weaknesses.
 - Make at least secure progress.

Confident students who

- Can explain their reasoning in a variety of different mathematical contexts.
 - Take an active part in group discussions.
 - Listen to others and value their opinions or ideas.
 - Accept and act upon advice given.
- Can articulate their answers using mathematically specific vocabulary.
 - Are willing to take risks when trying out new methods.

Responsible students who

- Meet deadlines.
- Bring the correct equipment to lessons.
- Will seek advice before a deadline.
 - Follow the behaviour policy.
 - Respect the views of others.
