

Portchester Community School

Maths Department Vision

Successful pupils who

- Exceed their expectations and achieve their full mathematical potential
- Develop the necessary mathematical knowledge and skills to get the qualifications they require for their future studies and employment
- Inspire the local community through their mathematical success

Confident pupils who

- Are ambitious, creative and fearless learners who explore an enjoyment in learning and applying mathematics
 - Think mathematically by applying problem solving strategies and reasoning logically
- Talk mathematically and use their conceptual understanding to apply mathematics in the real world

Responsible pupils who

- Understand how and why learning mathematics can enhance their future options
- Can be active and effective citizens supporting all pupils to achieve their potential
