Childhood diseases are on the rise

NHS
Southern Health
NHS Foundation Trust

Protect your child's future health now by ensuring their vaccinations are up to date.

Please complete the online consent form for your child if you have not already submitted one. The instructions are sent to you from the School Age Immunisation Service and include a unique school code for you to use.

Vaccines are not given without your consent.

Contact your school or the School Age Immunisation team if you require any assistance with the form.
