How To - Turn off location Tracking (iOS)

STEP ONE

Click "SETTINGS" and scroll down slightly to "Privacy"

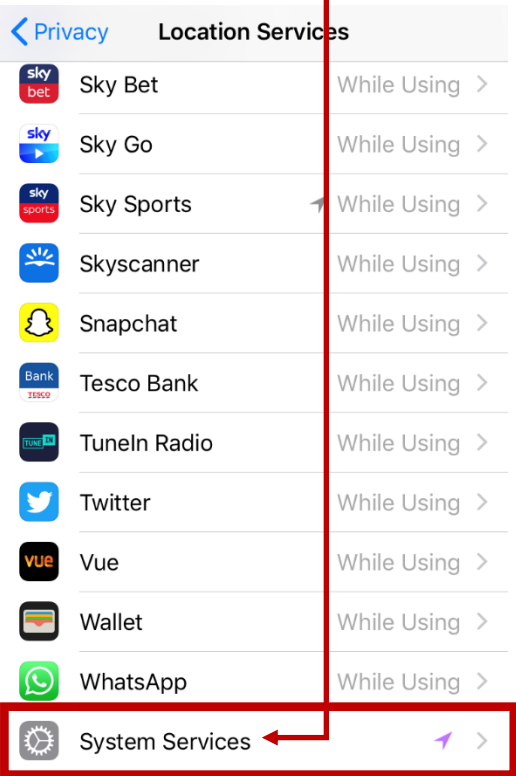

STEP TWO

Select "Location Services" (Note: if it's set to OFF this How-To will not work)

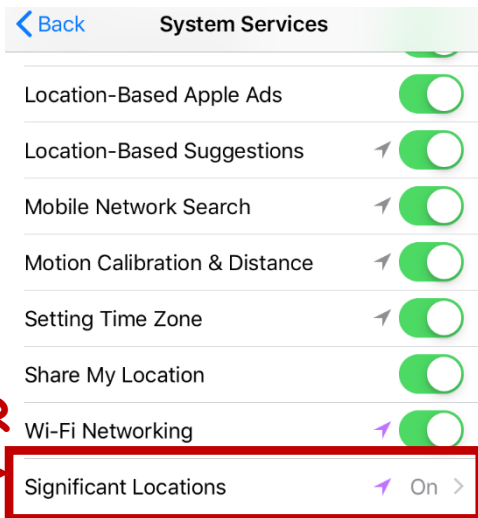

Scroll right to the bottom and select "System Services"

STEP THREE

STEP FOUR

Scroll halfway down to "Significant Locations" (Note: Old iOS versions will show "Frequent Locations")

STEP FIVE

You will be asked to enter your Finger ID or Passcode. Then it will display all the records it had on you. To turn this off, select "Significant Location" until the green tab is not showing anymore
