About Tarot

There is no wrong way to read Tarot, let's get that out there. Tarot has been around for hundreds of years and considered a divination tool that uses archetypes we all can relate to. The most popular deck is the Rider-Waite-Smith & Coleman deck.

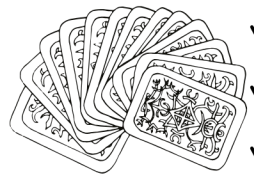

When reading for others, especially yourself, I suggest to be in a positive mindset and use the Laws of Attraction.

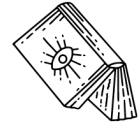

Reading the Cards

The deck of 78 cards are divided into 56 cards for the Minor Arcana and 22 cards for the Major Arcana. See the single word descriptions for a quick reference, get a better understanding of symbolism.

The next page will show you the 4 suits of the Minor Arcana and elements. Follow the steps below plus the info from the next page to understand the 56 cards.
