WELCOME TO ESSENS

It is a great honour for me that ESSENS products have been part of your life and your life stories for the past nine years. The entire ESSENS team is constantly working on their premium quality. We consider it important to keep up with world trends and bring added value. I firmly believe that the information provided in the catalogue on the benefits of our popular product lines will support your theoretical knowledge, and it will be closely linked to your personal experience.

essence

50 ml | **£21.50**

ESSENS WOMEN'S PERFUME

Appropriately chosen perfume is intended to complement not only the personal fragrance of the user, but also her personality in a natural and undisturbed manner. It should underscore her charm and glamour. Nothing is ingrained into a person's memory when meeting a woman as much as a pleasant scent.

The truth is that every fragrance is suitable for a different occasion, for different seasons. Therefore, it is not enough just to perfectly harmonise the outfit, but also to adjust to the appropriate perfume.

The basic ESSENS perfume portfolio is regularly updated, taking into account the latest world trends. In our offerings you will find a varied palette of the most modern fragrances from which everyone will surely choose.

OUR RANGE OF CLASSIC WOMEN'S PERFUMES

Women's perfumes 50 ml, Shower gels 200 ml, Body balms 200 ml

W104, W105, W107, W110, W111, W112, W113, W115, W117, W118, W124, W125, W127,W128, W130, W133, W134, W137, W138, W141, W142, W143, W148, W149, W150, W151, W153, W155, W156, W157, W161, W162, W163, W164, W165, W166, W167, W168, W169, W170

ESSENS MEN'S PERFUME

We live in a time where perfumes are no longer a woman's privilege. Modern men use perfumes equally as often, emphasising their healthy self-confidence, masculinity and strength. They play an important role in business and personal meetings, as a suitably chosen perfume underlines charisma and can be the basis of success.

At ESSENS, the basic portfolio of men's perfumes is regularly updated according to current world trends to meet the most demanding requirements of modern men.

OUR RANGE OF CLASSIC MEN'S PERFUMES

Men's perfumes 50 ml, Shower gels 200 ml

20%
aromatic
essence

50 ml | **£21.50**

20 % AROMATIC ESSENCE = ELITE AMONG PERFUMES

ESSENS perfumes are primarily created with emphasis on the highest possible quality. Our production is certified by GMP (Good Manufacturing Practice), ISO 9001-2008 and fulfils the strictest rules and standards of the EU. We guarantee the content of 20 % aroma essence (essential oils), exclusively supplied by SELUZ, one of the world's leading producers for perfume companies, which ensures that we rank amongst the elite of perfumes.

LET'S IMAGINE THE MOST SIMPLE EXPLANATION OF THE PRODUCTION PROCESS

Essences of the highest quality are first mixed with pure perfume alcohol. Only distilled water is used to denature the perfumes so that the fragrance and the quality of the final product is not at all influenced. The resulting mixture is supercooled to a temperature of -7°C and is then perfectly filtered with the use of a 10-micron mesh. For the components to be able to bind into a harmonic unit, the perfume matures for at least 8 weeks in stainless steel storage tanks. Our flacons, created by Italian masters, are cleaned by air and filled with these perfumes. The resulting products are packed into their boxes, which possess a design with the emphasis of purity. All production steps are under constant control of quality and only faultless materials are used for the production.

All of our products are certified and registered for sale in every country, where an ESSENS branch is established.

TOP NOTE

Very intense fragrance that is recognised immediately after application; this sensation lasts a few seconds, but in some perfumes this may even last up to 15 minutes.

MIDDLE NOTE

Fragrance that can be sensed after the unwinding of the top note, the intensity lasts roughly 2-3 hours.

BASE NOTE

In this phase, the fragrances are released slowly; the duration is extended for a few hours, sometimes even tens of hours.

OUR FRAGRANCE, OUR REPRESENTATION...

One of the five human senses is smell. All that we smell is immediately transmitted to our brain where the olfactory organs are situated. This means pleasant and well-chosen fragrances are the first impression of our surroundings we receive.

The emotion that the perfume evokes plays the most important role for choosing your essence. Our type of skin, what we wear and even how we feel at that moment subsequently forms the final choice and fragrance that passers-by and people perceive. That is the reason why the same perfume smells differently for all of us.

Let's pay attention to choosing the right perfume. All fragrances that we wish to introduce are available in the form of small samples. Fragrant ingredients are gradually released for several hours and you have the unique opportunity to try the perfume and choose the best scents, crafted especially for you. Every situation is an opportunity for another type of fragrance with different intensity. To school or to work we choose distinctively lighter fragrances which do not stir those around us, only those which compliment our personalities. On the contrary, evening company will appreciate a distinctive perfume that underlines charisma and charm.

THE MAGIC OF LASTING FRAGRANCE

- Perfume works best where the skin is mostly perfused with blood. It is, therefore, applied behind ears, to the neck, wrists and elbows, but also to the ankles
- Clothes should be put on after the skin has absorbed the perfume
- To make the fragrance last longer it is fitting to enhance it by using complimentary products of the same aroma
- For a lower intensity, it is enough to walk into a fragrance cloud, created by spraying perfume in front of yourself

**INDICATIVE FRAGRANCE
DIVISION BY THE
RATIO OF CONTAINED
AROMATIC ESSENCE**

EDS, Eau de Solide, more commonly known as sports or splash perfume, contains 1% of fragrant essences

EDC, Eau de Cologne, known simply as Cologne, contains 4-6% of fragrant essences

EDT, Eau de Toilette, contains 6-12% of fragrant essences

EDP, or Eau de Parfum as it is known, contains 12-15% of fragrant essences

Parfum is the highest quality and most intensive fragrance that can be purchased on the market, the proportion of fragrance is 15-40%

FRAGRANCE CHARACTERISTICS, FOR AN EASIER SELECTION OF PERFUME:

Perfumes can be divided according to fragrance type, as well as the contained aromatic essence. They often intertwine with each other, this makes categorising them complex. We can, however, divide them into several basic groups:

WOULD YOU LIKE TO TRY OUR PERFUMES FOR YOURSELF?

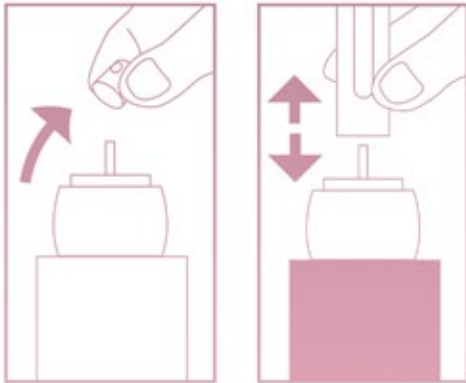

Ask your distributor for our perfume samples, physically try the perfumes, then select the best, created just for you.

ESSENS ATOMISER

- 5 ml refillable spray bottle
- A lightweight aluminium atomiser is trendy and completely replaces big and heavy glass alternatives
- A practical clear window shows the remaining perfume content that can be repeatedly refilled
- A practical size of 8.5 cm is ideal to fit into every handbag or pocket and does not burden the user due to its lightweight design
- Suitable for air travel

ESSENS BODY MIST

Indulge yourself in body mists that will freshen you up, energise your senses and gently scent your entire skin. They are optimal for hot summer days but a pleasant feeling can be provided all year long.

Gentle Body Mist are popular especially among young girls, as they may find the classic perfumes too heavy.

ESSENS Body Mist contains 3% of aromatic essences and are manufactured using the same procedure as ESSENS Perfumes. This means a perfect connection between the essential oils and other components is achieved.

AVAILABLE IN FRAGRANCES:

LIMITED EDITION

ESSENS PERFUME 4 ELEMENTS

Exceptional limited edition perfumes launched on the occasion of ESSENS Kick OFF 2020 4 Elements.

Enjoy overwhelming perfumes, which contain 20% fragrant essences and were inspired by four basic elements fire, water, earth and air.

100 ml | **£58.50**

PURPLE AIR

At the beginning, the distinctive spicy aroma is dominated by crushed pepper balls, which play with the smoky shades of freshly cut wood. The resulting unisex fragrance has the same characteristics with a blowing breeze and a gust of wind. She is free, tender, stubborn and full of strength.

Top note: Pepper, clove, bergamot, cumin

Middle note: Jasmine

Base note: Woody tones, musk

BLUE WATER

Exceptional and refined unisex fragrance immediately captivates with very soft citrus tones. These gradually combine with gentle flowers and a sweet vetiver to create a very harmonious refreshing scent, giving a sense of self-confidence and uniqueness.

Top note: Lemon, bergamot, grapefruit

Middle note: Lily, ylang-ylang, tonka bean

Base note: Woody tones, vetiver, musk

GREEN EARTH

The stunning earthy fragrance is based on a solid base of woody tones, from which graceful jasmine flowers emerge. The game of intertwined aromas brings an intense unisex fragrance full of confidence and determination.

Top note: Coconut, cumin, clove, jasmine

Middle note: Jasmine, ylang-ylang, tuberose

Base note: Jasmine, woody tones, musk, benzoin

RED FIRE

Beautifully warm unisex fragrance conceals sensual spicy oriental tones with gently intertwined fruity and smoky nuances underlined by fine cinnamon. The result is a bewitching yet elegant fragrance full of passion and verve.

Top note: Bergamot, lemon

Middle note: Cinnamon, cistus, patchouli

Base note: Vanilla, benzoin, musk, tonka bean

Niche

ESSENS NICHE PERFUME

Niche perfumes represent the very top of perfumery art. Discover the three new fragrances, that combine the art of traditional craft with nature.

ESSENS Niche Perfume awakens all our senses. They open up a world of memories, dreams, nostalgia, specific experiences, people and places of interest. They have influence on our mood and at the same time they can evoke feelings very intensely in us.

Step out of the crowd and enjoy unforgettable moments.

100 ml | **£97.50**

NOBLE GREY

Elegant noble unisex perfume representing a modern, energetic and warm scent. Woody and floral tones with a touch of jasmine, sensual musk and amber, play a perfect match, but the unmistakable cedar plays a dominant role and central role in the fragrance. The unique balance of the resulting scent leaves behind a significant trail.

Top note: Floral, wood

Middle note: Jasmine, wood

Base note: Cedar, musk, moss, amber

NEW

DIVINE GREEN

Fresh and sophisticated unisex perfume carries elements of the African continent, and above all its unbridled nature. The fragrance features note of bergamot with lemon, which together with woody, floral and fruity tones, are underlined by sensual musk and ambrosia. The resulting glamorous scent underscores the uniqueness of its user and leaves an unmistakable, stunning footprint behind it.

Top note: Bergamot, lemon, orange, caramel

Middle note: Cedarwood, vetiver, floral, fruity

Base note: Woody, musk, amber

NEW

SILVER ORANGE

The magical unisex perfume is the embodiment of personality, the most secret fantasy and playful sensuality. The sweet tones of a fine raspberry with peach are surrounded by the lily of the valley and the mystical scent of the oud, closing the scent with sensual musk, ambergris and sandalwood. Charming nuances underscore the senses and experience unforgettable moments.

Top note: Peach, raspberry

Middle note: Lily of the valley, heliotrope, cassis, oud

Base note: Musk, amber, sandalwood, vanilla

NEW

BROWN GRAPHITE

This highly elegant and noble, unisex perfume blends bergamot and star anise together with ambergris, surrounded by woody-tones of sandalwood, cypress and vanilla. This creates a long-lasting, sophisticated scent. In all its power, it reveals its beautiful, stunning aroma which conceals mysterious sensuality.

Top note: Bergamot, pink pepper, star anise

Middle note: Cypress, ambergris, tonka bean, cumin

Base note: Vanilla, sandalwood, patchouli, musk

ROYAL BLUE

This deep and splendid scent creates endless emotions. Opening with woody and green tones gradually blending through a thick patch into the ultimate dazzling scent of smoke and tobacco. This spellbinding unisex scent leaves behind a deep and intense footprint.

Top note: Green notes, woody

Middle note: Patchouli, cedarwood, sandalwood

Base note: Vanilla, tobacco, smokey, musk

COLOSTRUM

Colostrum

Colostrum

150 ml

WHAT IS COLOSTRUM?

- Colostrum is the first milk produced by the mammary glands after mammals give birth. Contained within are all necessary, ready-made antibodies to protect against infection in the early weeks of life.
- Colostrum is valued for its high content of vitamins (A, D, E, C, B1, B2, B6, B12, folic acid, pantothenic acid, biotin, niacin), minerals, trace elements (sodium, potassium, calcium, phosphorus, magnesium, iron, iodine, chromium), proteins and protease inhibitors.
- Colostrum contains antibodies effective against bacteria, viruses and fungi.

BENEFITS OF COSMETICS CONTAINING ESSENS COLOSTRUM

- ESSENS body and facial cosmetics, containing colostrum, have been created on the basis of the the latest research, knowledge and trends within the field of premium cosmetics
- Due to the effects of phospholipids (fats and organic acids), it is easier for the active substances contained within to penetrate the upper layer of skin. The subsequent formation of a lipid film, a thin layer which covers the skin, acts as a retardant against the evaporation of water from the skin
- The antibacterial and anti-inflammatory effects of lactoferrin and lactoperoxidase inhibit inflammation and skin irritation
- They contain naturally sourced, raw materials - of the highest possible quality
- The skin is protected from all-day exposure to adverse external influences
- Are without parabens and loaders, are non-toxic to the environment
- Optimal for those with sensitive skin, are suitable for everyday use
- They help in the removal and treatment of skin defects and acne
- Growth factors positively affect skin cell regeneration
- Regenerating skin cells produces an anti-ageing effect
- The removal of wrinkles is accelerated

Set | **£208.60**

PREMIUM COMPOSITION AND
EXTREMELY HIGH EFFICIENCY. THOSE
ARE CHARACTERISTICS THAT ARE
PROUDLY CARRIED BY OUR LIP BALM
WITH COLOSTRUM - UNIQUE ON THE
WORLD MARKET

ESSENS COLOSTRUM+ LIP BALM

- Lip balm with fine vanilla aroma and unique premium ingredients has perfect nourishing, hydrating and protective effect
- Provides optimal regeneration and hydration of dry and cracked lips and promotes the recovery of the natural protective coat
- Contains exclusive vegetable oils and waxes – beeswax, jojoba wax and rosehip oil
- Colostrum has a strong anti-ageing effect, prevents inflammation and skin irritation
- Ghee from colostrum is anhydrous butter oil from colostrum with a high content of fat – soluble vitamins (especially A, E and K), has a very positive effect on the skin, including problematic skin types
- Tocopheryl is a form of vitamin E and acts as an antioxidant
- Wakapamp is a brand new natural ingredient from a seaweed Wakame (*Undaria pinnatifida*) with excellent power to increase the amount and quality of skin sebum as well as a water reservoir in the skin

4 g | **£19.50**

ESSENS COLOSTRUM SHOWER GEL

- This gently scented shower gel is suitable for everyday use and is optimal for those with sensitive skin
- The hemp oil - used within, treat skin diseases, is hypoallergenic, helps restore the naturally protective microfilm of the skin, slows the ageing of the skin, moisturises and softens whilst also possessing strong anti-inflammatory and anti-bacterial effects
- Natural ingredient lauryl polyglucose, from the extracts of corn and coconut oil, creates a rich, thick and stable foam
- Glucose guarantees the highest possible softness of shower gel
- High-performance detergents guarantee the excellent removal of impurities from the surface of the skin
- A special formula eliminates any sensitivity to the hardness of water and retains excellent washing qualities

50 ml | **£41**

ALOE VERA

essens
aloe vera

ALOE VERA BARBADENSIS MILLER

(True aloe) may grow up to 100cm tall and is a succulent perennial herb with a short stem and a rosette of sparsely growing, spiny leaves. Plant origin is mostly attributed to the Nile basin, but is now cultivated in climatically conforming regions around the world. The pulp of the leaves is formed by colourless cells with a gel-like content that has clinically proven health benefits and is therefore used as a food supplement and has now found its place in the cosmetics industry. Aloe Vera Gel contains amino acids, vitamins, minerals, enzymes, polysaccharides and many other beneficial substances.

BENEFITS OF COSMETICS CONTAINING ALOE VERA

- They have been created on the basis of the the latest research, knowledge and trends
- Are without parabens and loaders, are non-toxic to the environment
- Suitable for everyday use and optimal for those with sensitive skin and susceptibilities toward acne, herpes, eczema or fungal infections
- Aloe vera helps to reduce bacterial growth and is highly valued for both it's antibacterial and anti-inflammatory effects
- Aloe vera is easily absorbed deep below the surface of the skin and stimulates fibroblasts (basic cells of connective tissue found within different parts of the human body) resulting in the accelerated recovery of cells

THE GROWING, PRODUCTION

COSMETICS WITH ALOE VERA SUITABLE
FOR BOTH MEN AND WOMEN

HAND & FOOT

ESSENS HAND CREAM

- Gentle and moisturising hand creams effectively nourish and protect dry and damaged skin, care for nail beds and restore their elasticity
- They are suitable for everyday use and for all skin types
- They provide intense hydration and protect it from drying out, cracking and the effects of adverse external influences for the whole day
- Glycerin which, in addition to possessing fantastic hydrating properties, has been shown to have a very positive effect on skin cells, furthermore, it creates a protective barrier on the skin surface
- Patented PENTAVITIN® provides instant deep hydration, which is released for up to 72 hours and strengthens the skin's protective function
- Tocopheryl is a form of vitamin E and it acts as an antioxidant, slows the scaling of the skin and prevents its ageing, which is manifested by pigment spots, wrinkles and loss of strength
- Shea butter perfectly hydrates and prevents premature ageing of the skin
- Creams are easy to apply, absorbed quickly and do not leave a greasy feeling

ESSENS SUN CARE DELIVERS A REVOLUTIONARY WAY OF SUNBATHING!

EUSOLEX® UV-PEARLS®

- Revolutionary concept for protection against UV
- UV-PEARLS® are the sunglasses for your skin!
- A patent from a German science and technology company operating in the field of pharmaceuticals, natural sciences and materials for advanced technology
- Organic UV filters are locked in micro-capsules, they are a unique, micro-encapsulation of sunscreen in silica glass pearls
- Encapsulated UV filters remain on the skin surface, which guarantees a high UV protection, the sunscreen does not come into direct contact with the skin meaning they are optimal for those with sensitive skin, skin is soft after use, not greasy

THALITAN

- A unique oligosaccharide of plant origin from the seaweed laminaria digitata
- Premium product from a French company specialising in biotechnology and active substances from sea environments
- Helps stimulate tanning while protecting the skin from the harmful effects of the sun
- Promotes the production of skin pigment melanin, enhancing UV protection
- Contains manganese and magnesium ions, which have antioxidant effects

SAFER UV PROTECTION,
OPTIMAL PROTECTION FOR
SENSITIVE SKIN AND A LONGER
LIFE FOR YOUR TAN!

HOW TO USE ESSENS SUN CARE

Going on holiday to the beach or in the mountains? Will you be exposed to the sun?

To achieve optimal results while sunbathing, bronzed skin without burning, minimal wrinkle occurrence and a reduced risk of skin diseases, it is recommended to use the ESSENS Sun Care products as follows:

1. Begin using your first ESSENS Sun Care Tablets 3 days before vacation departure. Take one tablet, 3 times a day, after main meals. Finish your remaining tablets during the holiday. These tablets were developed to complement the human body with raw materials that produce brown pigment, accelerate tanning, and help skin remain more tanned and glossy. The unique composition also has a positive effect on the immune system, which may be weakened during excessive exposure to the sun.
2. Prior to the application of our sunscreen, apply our Before Sun Care Gel to your skin. This creates a base for our sunscreen to sit upon ensuring it holds very well and is easily applied, further assisting in even protection with the help of UV filters. This gel additionally contains substances which stimulate the skin to produce more vitamin D and melanin - brown pigment.
3. Approximately 15 minutes after applying ESSENS Before Sun Care Gel, it is a good time to apply either ESSENS Sun Care SPF 30 or ESSENS Sun Care SPF 50 to the skin. The protection factor is usually selected according to the skin type and intensity of sunlight, to which it will be exposed. ESSENS Sun Care sunscreens include effective protection against both UVA and UVB rays and contain substances to assist in the accelerated browning of skin.
4. After sunbathing, apply our ESSENS After Sun Care Milk, which is used for skin regeneration. It reduces redness and adds that much-needed hydration, thereby prolonging your tan.

WHY FOLLOW YOUR SKIN PHOTOTYPE WHEN CHOOSING THE PROTECTIVE FACTOR?

The number of minutes specified for your phototype is multiplied by the number of SPFs. The resulting number should amount to the number of minutes that can be spent in the sun without the risk of burning.

Phototype	Description of skin	Skin's own protective period
1	Very pale, blonde and freckled, almost never tanned, reacts with high sensitivity - almost always burns. Blonde or red hair.	5 - 10 minutes
2	Light, prone to freckles, hardly tans and reacts sensitively - often burned. Bright hair.	10 - 20 minutes
3	Common natural colour, no freckles. May redden after sunbathing, but tans evenly and rarely gets burned. From dark blonde to medium brown hair.	15 - 25 minutes
4	Darker skin that tans quickly and the probability of burning is minimal. Brown to black hair.	25 - 35 minutes

The table is for guidance only, it is necessary to take into account your state of health and other factors.

ESSENS BEFORE SUN CARE GEL

- Gently hydrating skin care gel for all skin types
- Is without parabens
- Ensures the hydration of the skin before tanning, prevents the escape of water from the skin during exposure to high temperatures
- Smooths wrinkles and skin unevenness, thus ensuring an even application of sunscreen with a protection factor
- Contains panthenol and thalitan which stimulate the skin into producing vitamin D and the skin pigment, melanin
- The extract of aloe vera penetrates deep into the skin structure, where it perfectly hydrates and regenerates

200 ml | **£17.40**

ESSENS BEFORE SUN CARE TABLETS

- Purely natural food supplement developed and manufactured under pharmaceutical supervision
- Helps prepare the skin for sunlight
- Promotes a healthy, bronze tan and prolongs its durability
- Contains spirulina, a freshwater cyanobacterium which is rich in carotenoids (red-orange pigments) that further extend your tan, spirulina also supports the immune system due to the very high content of vitamins A, B, C, D and E
- Amino acid L-tyrosine supports the production of skin pigments and melanin working as a tan "accelerator"
- Extract of aloe vera helps to maintain healthy skin
- Does not contain artificial colouring, sugar, gluten or lactose

60 tablets | **£20.60**

Set | **£125.80**
