Welcome to TL Fabricating

We offer a variety of fabricating services, working primarily in light gauge stainless steel sheet metal and tubing. We also have extensive experience with aluminum and mild steels.

Our capabilities include

- Shearing
- CNC Cutting - In late June 2022 we will be installing a Mazak Super Turbo 4000w CO2 laser with automated nesting and programming software.
- Saw Cutting
- Punching - Amada Vela II Turret Punch
- Forming
 - 60 Ton 6' press brake
- Light machining
 - 3 Lagun FTV-2 Mills
 - Clausing 15" Lathe
 - Maxturn 800 Lathe
 - TRAK CNC Toolroom Machining Center (Coming Late June 2022)
- Welding
 - 2 Miller Maxstar 200 Tig Welders
 - 1 Miller Syncrowave 300 Tig Welder (Purchased 2022)
 - 2 Lincoln Precision Mig Welders
- Grinding and finishing
- In-house Pickling and Passivation with the ability to contract sandblasting, powder coating and anodizing.
