

GROW AT SCALE WITH

ACRE CONNECT™

The Acre Connect™ brings the electrical and plumbing complexities of a large farm installation into a simple, prefabricated solution.

SIMPLE AND MODULAR COMMERCIAL SCALE

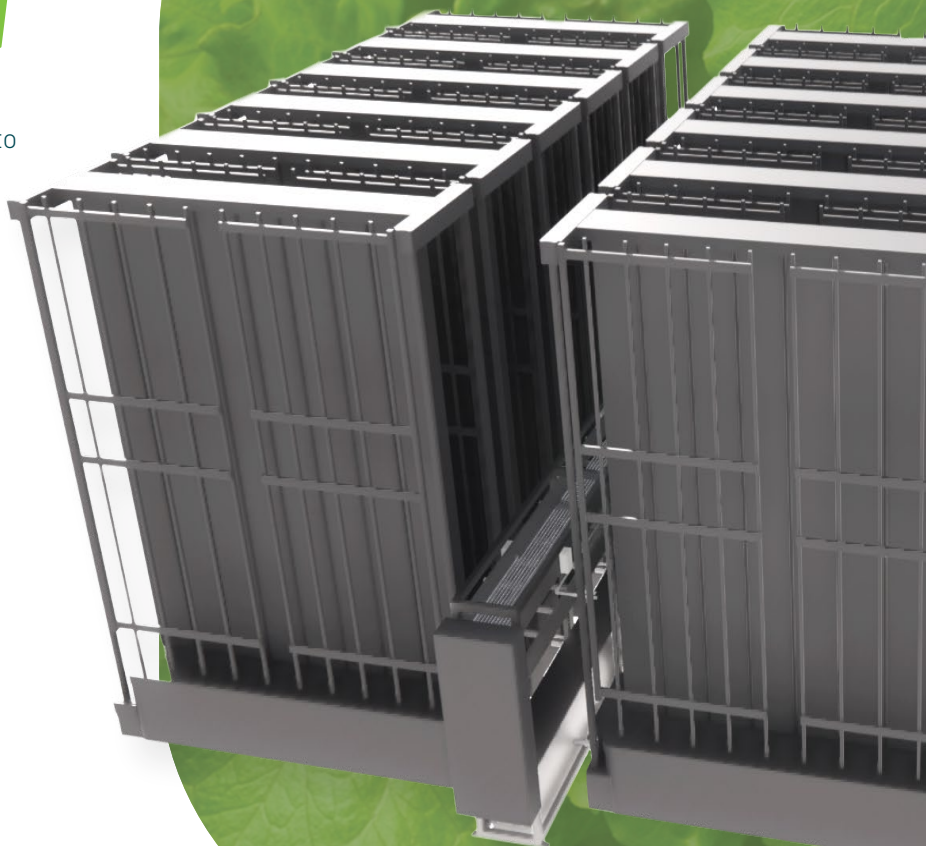

- Industry-leading automation
- Minimization of facilities impact
- Simple facilities requirements
- Lowered capital cost
- No client expertise required
- Ability to build in new and existing spaces

Growing as easy as 1-2-3

Acre Connect™ makes growing at scale as easy as one, two, three. All you need to start growing is:

1. 100 amp power panel
2. Sufficient water source
3. Minimum 490 sq. ft

Contact us using the information below to learn if your space is suitable. We offer free consultations to assess your space and create a customized plan. Plus, you'll receive free enrollment into our cultivation program and ongoing expert support to ensure your success.

Plug in, Power Change

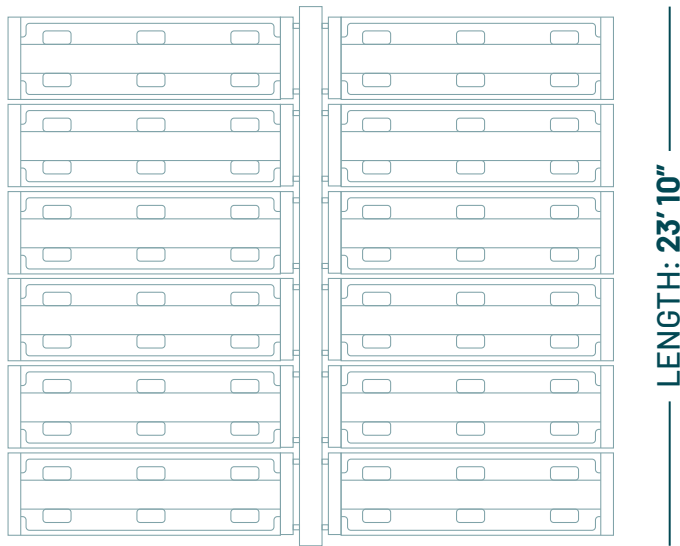

Fork Farms feeds the future with food access technology. Our flexible, innovative solutions empower anyone, anywhere to grow and access fresh food. We have what you need to make a positive impact right now.

Let's get growing!

Efficient, scalable hydroponic technology

WIDTH: 20' 8"

LENGTH: 23' 10"

ACRE CONNECT™ SPECS

- 23' 10" x 20' 8" x 9'
- FDA approved material
- Full spectrum LED Grow Lights
- Self-contained plumbing irrigation system
- Point of connection: 100-amp pin and sleeve connector
- Sensible/latent heat load: 43,265 BTU per hour/ 137 pints per day
- Weight of unit (including water weight): 26,000 lbs

REQUIREMENTS

- Temperature-controlled 65°F to 75°F (20°C to 24°C)
- Power distribution: 100A, NEMA 3R panel
- Voltage: 120/208V, 1ph 3W
- LENGTH: 23' 10"
- Minimum 490 sq. ft

Note: These specifications are based on a full Acre Connect™ (12 Flex Acres)
