

Section 6

Join with a standing BPdc around any st. BPdc around next 339 sts. Join to the first st with a slst. FO.

340 sts

****Find the center sts****

Spread your work out on a large surface and smooth it flat. This is easier when done on carpet or fabric surface that allows the yarn to "stick."

Using a broomstick, string, or tape measure make a line between the eyes from top to bottom. Mark the st at the center of the top. [Count 84 sts, mark the next st] 3 times. Use 2 pieces of yarn to line up top and bottom stitches and side to side stitches, adjust markers until the eyes are centered and aligned making sure each stitch marker remains in the 85th st from the last marker. You will only be using the top center marker, but to check for center alignment you must mark the 4 axis.
