

CLIENT CHECK LIST FOR INTERIOR PHOTOS/VIDEO & EXTERIOR PHOTOS/DRONE

The big day is almost here, and you have a little “home” work before your photography professionals arrive! Please review and use this checklist to prepare your home for interior and exterior listing photos. We **film as is** and are on a tight daily schedule with several other scheduled appointments during the day, so please have the home ready when the photographer arrives. If it is not, we might have to reschedule for another day and we do charge a \$50 rescheduling fee.

We do suggest that the Agent visit the home one hour prior to the scheduled photo time to make sure the home is photo ready when our photographer arrives. It normally takes 30-45 minutes to do listing photos and an additional 30- 45 for interior video. If the photographer has to be on location longer due to a home not being ready, additional charges will apply.

****Please give the photographer a 15 minute time window to arrive 15 minutes earlier or later to account for traffic****

Inside the Home

- In bedrooms make sure beds are made, pillows are fluffed, blankets folded, shoes removed from the floor, dressers decluttered etc.
