**SAFETY RULES
FOR INTERIOR PHOTOSHOOTS**

At Great Lakes Aerial Video Services, we would like to assure all our clients that we are committed to your safety and well-being during this unprecedented time of change in our industry. As we move forward, you can expect the same great services, as well as strict adherence to CDC guidelines to ensure we keep our clients, our employees, our families... and you safe.

To ensure safe operations, the immediate preparedness protocol has been implemented:

- Interiors photos and videos will be conducted with personal protective gear to include disposable booties, gloves, and protective breathing masks.
- Photographers will not touch or move anything (if you do not want it in the picture, please move it prior to our arrival.)
- Lights are requested to be left on.
- If we are doing an interior video, please have on ceiling fans and fireplaces
- No more than 4 people in the home at one time (Michigan Realtors Requirements)
- Please use social distancing with our photographers, it is preferred that no one be inside the home when we film.
- Expected durations for interior photo shoots and videos vary by sizing. Up to 3000 sq. ft. typically takes 30 minutes for photo and an additional 30 minutes for video. You will be provided with an approximate window of time that the residence will need to be available.

We are prepared to continue serving our industry with the utmost considerations for your health and safety! We are in this together, and together we shall accomplish a happy and healthy outcome for you and your clients.

Thank you for your cooperation and understanding, stay healthy!

Your team at Great Lakes Aerial Video Services
