## WHAT IS VALUE OF BRAND IDENTITY DESIGN

### BRANDING

The trade mark and design must be unique.

Excellence is the foundation stone for every trade mark to be launched properly. We carefully search for the things that distinguish your trade mark. We clearly formulate and design it to match the markets' goals. In order to guarantee our excellence and one-of-its-kind ads, we always aspire to build the most influential trademark that grabs the audiences' attention starting with the idea, design, and printmaking. Including identity, logos, official documentations, cards, bills, bonds, and covers.

Brand identity must be sustainable. Strategy and design unite to deliver real values that resonate with audiences. Brand identity design is a practical and cohesive 'action plan' to build brand success.

**Arabic Designer** Advertising team has over 15 years professional brand design experience. Our designers provide custom brand development to achieve maximum impact and profitability for your business. Every brand we create is both memorable and unique. Brands must consistently deliver upon promise to maintain a positive brand profile.

## PRINTING

Arabic designer are recognised market leaders in the printing sector, through a combination of our expert and friendly team incredible printing methods and short turnarounds we are relied upon by many specialist businesses for their brochure printing needs. With a wide range of services available even you're looking for small quantity printing then our services are second to none. Digital printing can match the most demanding production schedules and financial targets, all while maintaining incredible production.

## DIGITAL PRINTING

The age of technology is not only revolutionising the way we live but also the way we print. There are two different types of printing services we use at WDM. While Litho printing is a traditional method, still used today, digital printing can be a much cheaper and faster alternative printing process depending on your requirements.

A great advantage of digital printing, if not the biggest, is that it is much faster than traditional printing methods using plates. With digital printing, you only have to upload a high-res file of your chosen image and the digital printer will do the rest. Therefore, there is a much faster turnaround for your direct mail marketing campaign.
