

## Auerbach Saga Continues

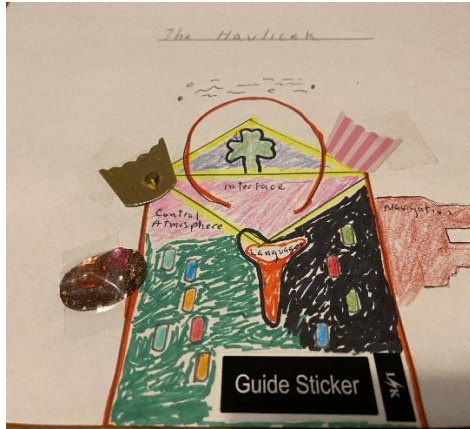

Auerbach had  
learned so much  
in short time in  
Anne Arundel  
County

You may recall he  
flew his space ship  
the Icarus to Earth  
from Guyaton

But it was Guyaton his  
home planet and his  
family he missed so

Each day Auerbach  
used his trusty  
computer the Havilcek  
to determine his next  
move

So whether he was  
going to the State  
House in Annapolis

Or the White House  
in Washington DC  
he was learning.

At the end of the day he  
always communicated  
with his father Russell

Life was grand
