ISSUE #1

BADDIE INTERNATIONAL

BADDIE

Thailand Edition

01. from the editor

Of all the places I have traveled, Thailand has become my home away from home.

In this debut issue we have worked hard to make this the best representation of the love and freedom this enchanting culture represents.

We were very thoughtful to respect the culture and the values of Thais and the Kingdom of

Thailand.

For our main attraction, we have selected two well-traveled Thai women. Not only did they guide me around Thailand, they were also very knowledgeable travel companions to other countries I had never visited.

Preem was born in the southern province of Thailand, Surat Thani.

She grew up surrounded by mountains, lush forests and calm gulf side beaches. Preem had dreams of flourishing in the big city since she was young. At the age of 17, she moved away from home and found a job working as a telephone customer service representative in Bangkok.

These days Preem spends her time split between Sydney, Australia and Bangkok Thailand as a personal assistant. Her clients are CEOs of multinational firms. She also earns a living modeling and English-Thai translation and interpretation.

Ploy Tigerstram is an international fashion model based in Bangkok Thailand. We met up at her home for a photo shoot.
