

Remote Access Solution

Convenient, Powerful, and Secure

Diekast offers an option for secure remote monitoring and trouble shooting for our Controllers. The Ewon COZY is an industrial remote access device utilizing your buildings WiFi. We can troubleshoot, debug PLC programs, program updates, and log into any Allen Bradley PLC with an ethernet port, all without needing to be onsite. This is an effective way to drastically reduce costly downtime. The Ewon COZY can be easily moved from machine to machine and be stored in the maintenance office when not being used.

Ewon COZY 131 Ethernet Industrial Remote Access Router with WiFi (WiFi Antenna and power supply included) 24VDC, 4 x RJ45 Ethernet LAN/WAN Ports, 2 x DI/ 1 x DO, -25 to 70C
