GET TO KNOW ME

For the Love of the Game

4AnglesPitching will be doing private and group pitching lessons in Nashville, TN, and will work with all ages. The meaning behind the name is that in my career I pitched in four different arm slots (Over the top, Three quarter, Sidearm, and Submarine.), and I developed my own unique and effective teaching methods. I focus on getting your body and mind focused on the game and prepare you to compete against the best. I am ready to share my experience and knowledge of the game with the next generation of baseball players.
