Centre for Distance Education 20.1 Acharya Nagarjuna University

Chapter – 20 STANDARD COSTING AND VARIANCE ANALYSIS

20.0 Objective :

After going through this unit you should be able to

- Understand the concept of standard costing
- Know the types of standards and process in setting standards
- Discuss the meaning and purpose of various analysis
- Analyse various types of variances viz., material variance, labour variance, and overhead variance.

Structure :

- 20.1 Introduction
- 20.2 Concept of Standard Costing
- 20.3 Types of Standard Costs
- 20.4 Variance analysis
- 20.5 Material Variance
- 20.6 Labour Variance
- 20.7 Overhead Variance
- 20.8 Sales Variances
- 20.9 Advantages and Limitations
- 20.10 Self Assessment Questions
- 20.11 Exercises
- 20.12 Suggested Readings

20.1 INTRODUCTION :

Financial Accounting is only historical costing and is only a post – marten examination of cost and hence, is not very much useful to management for cost control and cost reduction purposes. Besides this, historical costing is not useful to managerial decision making and policy formulating purposes. Hence, to the accounting world, a new concept (or) tool by name "Standard Costing" appeared as a very big way out.

20.2 CONCEPT OF STANDARD COSTING : [DEFINITION]

Normally it is understood as a long step by step process of fixing standards, using standards, and their comparisons with the actuals, finding out of variances in between standards and actuals, analysing these variances, finding out of causative factors for these variances, classifying these causes into controllable and uncontrollable, controlling and taking remedial actions, revising these standards if necessary etc. Thus, it is a cost controlling and cost reducing device.

Management Accounting study material includes management accounting notes, management accounting books, management accounting syllabus, management accounting question paper, management accounting case study, management accounting questions and answers, management accounting courses in management accounting pdf form. All cash receipts are entered on the debit side in the cash column and all cash payments on the credit side in the cash column of the Cash Book. Amounts paid into the bank or deposited are recorded on the debit side in the bank column and all payments made by cheques are recorded on the credit side in the bank column.

d) "Bank" Cash Book or Cash Book with Bank and Discount Columns In case of a business where all transactions are effected through bank, i.e., all receipts are banked (deposited into the bank) on the same day and all payments are made by cheques only, the cash column in the cash book is of no use. Hence, the Cash Book with bank and discount columns alone is maintained. The ruling of a Cash Book with bank and discount column is as follows:

Two Column Cash Book (with Bank and Discount Columns)					
Dr.	Particulars	R.No.	L.F.	Cr.	Particulars
Date			allowed	Bank received	

e) Petty Cash Book: The word 'petty' has its origin from the French word 'petit' which means small. The petty cash book is used to record items like cartilage, cartage, entertainment expenses, office expenses, postage and telegrams, stationery, etc. The person who maintains this book is called the 'petty cashier'. The petty cash book is used by many business concerns to save the much valuable time of the senior official, who usually writes up the main cash book, to prevent over burdening of the main cash book with so many petty items and to find out readily and easily information about the more important transactions.

The amount required to meet out various petty items is estimated and given to the petty cashier at the beginning of the stipulated period say a fortnight or a month. When the petty cashier finds shortage of money, he has to submit the petty cash book, after making all the entries, to the chief cashier for necessary verifications. The chief cashier in turn, verifies all the entries with supporting vouchers and disburses cash or issues cheque for the exact amount spent.

Columnar Petty Cash Book or analytical Petty Cash Book
In this cash book various items of petty cash payments are analysed and separate analytical columns are provided for recording each and every item. The amount of cash received from the chief cashier for meeting out the petty expenses is recorded on the debit side and the actual cash payments towards various petty items are recorded on the credit side in the total as well as analytical columns.

The analytical column is provided for each usual head of expense like postage & telegrams, printing & stationery, cartage & cartage, traveling expenses, entertainment expenses, office expenses, sundry expenses, etc. Subsequently, the totals of these analytical columns are posted to the respective ledger accounts which save labour used in posting each item of payment separately in the ledger. The balancing of petty cash book is done in the total payments column.
