## Schedule Management

Utilizing our software we identify our scope of work within the master schedule to help develop a strategy to advance and maintain the critical path.

## Submittals and Material Management

Material management is the key to a successful project. We provide prompt submittals for approval and track the approvals to provide ample time for any lead times associated with material procurement. Our management and procurement teams follow a strict protocol to ensure it is the right product on time.

## Project Tracking

Our approach to project management includes project tracking for our work as to provide a complete close out document package at the end of the project.
