

Bags of Hope – Food Program

When people are facing hardship, one of their most urgent concerns is knowing where their next meal will come from. **The Bags of Hope – Food Program** exists to meet that need by reaching families where they are and providing consistent support throughout the year. Our Bags of Hope campaign distributes food to children and families at least three times annually. With the help of our corporate partners, community supporters, and individual donors, we fill bags with nutritious food items and provide families with gift cards to local grocery stores.

We are also committed to increasing access to fresh, healthy food in areas where it is limited.

By partnering with community gardens and local growers, we are able to:

- Connect fresh produce directly to families who need it.
- Provide financial support to maintain and expand community garden efforts.
- Strengthen local food resources that benefit entire neighborhoods.

Giving Hope to
Children and
Families in the
U.S., Africa, and
the Caribbean

Our commitment extends beyond Metro Atlanta. In several African and Caribbean countries, we support organizations that feed and care for children in orphanages, as well as those coordinating community food banks, feeding programs, and holiday meal distributions.
