

Project Excel– Education Program

We believe that preparing children for the future begins with access to a strong and supportive educational foundation. Project Excel is ACF of Metro Atlanta's comprehensive education initiative designed to give children the tools they need to succeed—academically, emotionally, and socially. Project Excel encompasses scholarships, The Gift of Books program, and tutoring support for children and youth from elementary school through college.

Scholarships are awarded to students in secondary school and those entering or continuing their college education. Recipients demonstrate strong academic potential, financial need, and a commitment to serving and uplifting their communities. Our goal is to help them build a strong and sustainable future.

The Gift of Books Project collects, sorts, and ships books and educational supplies to support libraries and learning centers in underserved schools and communities across Africa and the Caribbean. This program helps bridge the global literacy gap and ensures more children have access to quality learning resources.

**Giving Hope to
Children and
Families in Metro
Atlanta, Across
the U.S., Africa,
and the Caribbean**

Our commitment extends beyond Metro Atlanta. In several African and Caribbean countries, we support organizations that feed and care for children in orphanages, as well as those coordinating community food banks, feeding programs, and holiday meal distributions.

ACF of Metro Atlanta remains committed to empowering the next generation—one student, one classroom, and one community at a time.
