

Food Program

When we are connected to people who have a need, one of their first priorities is knowing where their next meal will come from. Our food program addresses their needs by creating initiatives that meet people where they are.

Our Bags of Hope campaign reaches children and families through food distribution at least three times a year. With the assistance of corporate and individual sponsors, we are able to fill bags with food as well as give the families gift cards to local grocery stores.

**Giving Hope to
Children in the
U.S., Africa and
the Caribbean**

We are also working to create access to food in areas where there is less fresh food available. By partnering with local communities gardens and other sources, we can support their efforts in two ways by connecting them to those in need who can benefit from maintaining their own gardens and by providing financial support to expand or maintain the gardens.

We are committed to doing all we can to make sure that children and families don't have to worry about food, even internationally. In several countries in Africa and The Bahamas, we have supported organizations who feed and care for children in orphanages as well as those who have coordinated food banks, food distribution events and special occasion meals, like Christmas. .
