XA_Card_Connect-AN©

By Lexel Corporation

- **PCI Compliant Credit Card Processing for Infor XA**
- **Supports COM, CSM and COM_Net2 Order Entry**
- **Uses Authorize.Net for Connection to a Wide Variety of Payment Processors**

Introduction

Credit Card processing is a fact of life. Once only used for pure retail, many businesses today utilize credit cards to optimize cash flow and track cost.
In Infor XA, taking a credit card order has always been a challenge involving redundant entry and manual processes. XA_Card_Connect-AN simplifies this process and makes it a natural extension of COM, CSM, COM_Net2 and COM_mander order entry.

Leveraging the industry standard Authorize.Net®, XA_Card_Connect-AN customers can enjoy the benefit of seamlessly integrated, secure payment processing with a wide choice of banks. All sensitive **credit card data is stored "Out of Scope"…in the cloud …not on your system.**

Accepting Credit Cards is Good Business!

Let the customers have their credit card points and get your money faster. Avoid the cost of COD's and save the cost and aggravation of A/R collections. No matter how you look at it, secure credit card processing is a necessity in today's business climate and it makes good business sense for you and your customer.
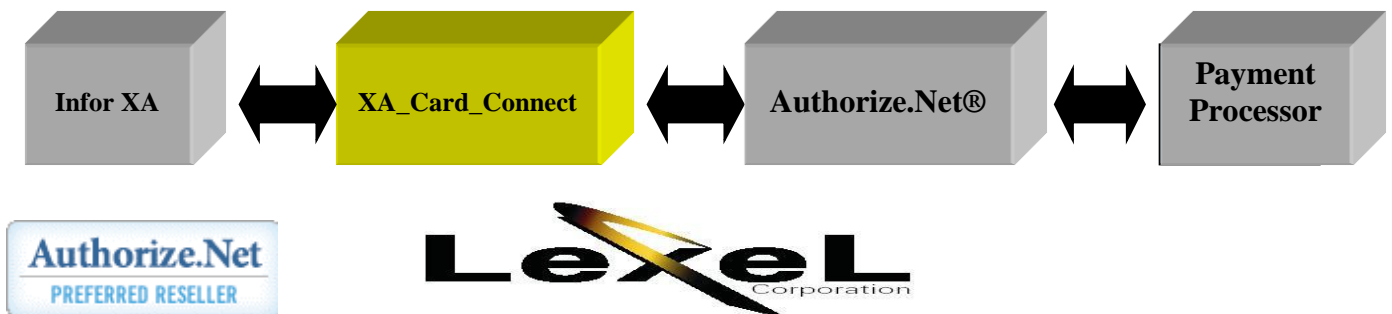

Infor XA Integration

No more putting card numbers on "sticky notes" or walking to the credit card terminal. Fully integrated to order entry, pick list print and invoice print processing, XA_Card_Connect-AN removes all of the dual effort and mistakes usually associated with manual credit card processing. No more issues with freight costs, order changes and partial shipments. XA_Card_Connect-AN's unique tailorable processing modes allows you to configure the product for the way you do business.

Installs Easily with No Additional Hardware

XA_Card_Connect-AN is a native IBM System i application. It installs quickly and requires no modifications to Infor XA. Training is in hours…not days.
XA_Card_Connect-AN – the only fully integrated credit card solution for Infor XA!
