

GRAZING TABLES

WHAT IS A GRAZING TABLE?

A charcuterie grazing table is a visually appealing and abundant spread of various cured meats, cheeses, accompaniments, and other complementary foods that are artfully arranged on a table or surface for people to graze on and enjoy. It is a popular choice for parties, gatherings, events, and celebrations due to its aesthetic appeal and the wide variety of flavors and textures it offers.

The term "charcuterie" refers to a selection of prepared meats that have been cured, smoked, or otherwise preserved, such as prosciutto, salami, chorizo, and pâté. However, a charcuterie grazing table typically goes beyond just meats and may include an assortment of other items to graze on.

The idea behind a charcuterie grazing table is to create a visually stunning and palate-pleasing display that encourages guests to sample and create their own combinations of flavors. It's a flexible and customizable concept that can cater to a variety of dietary preferences and allows guests to mingle and enjoy a wide assortment of foods in a relaxed and social atmosphere.
