CurlyTail,

K.v.H. says the Cortez "Puff" job's loose ends need tying—NOW. Breeder's talking; says he kept records of the Golden's forced doodle litter. If Javier traces it back, we're exposed. Eliminate the evidence—kennel logs, vet files, the works. Burn it.

[Redacted],
Breeder's in Patagonia—shaky, but I've got a guy. Logs and vet files torched by dawn. Puff's doodle pups already shipped—untraceable. Cortez won't find squat. Tell K.v.H. it's handled—2035's still on.

CurlyTail,

Good. K.v.H. wants a body next time—Cortez is loud. Shred the breeder's hard drive too; no leaks. Papers hit \$2K/doodle—can't risk it. Report when it's ash.
