

fort erie  
arts council

The Fort Erie Art Council is thrilled to be offering a variety of gourd workshops. Come and explore how to transform a gourd into a piece of art. Whether dyed, painted or carved, gourds can be transformed into every day objects or an art piece. These are all beginner workshops, no skills required. Only requirement needed is the love to create.

### *Batiking Gourd Ink Art*

In this beginners workshop the basic steps required to preparing a gourd for art work will be taught. Students will then learn the technique of using two or more different colour of inks in combination of a blending solution to achieve the stunning batiking effect.

### *Pointillism (pen + ink) Goldfish*

This is a relaxing workshop learning how to use a pen to create a stunning goldfish using dots. How to use and apply a stencil to a rounded gourd will also be taught. This technique can be applied to different mediums.

No experience or special skills required. Just bring your love to create!

### *Textured Gourd*

In this beginners workshop students will learn how to apply and colour a textured rim around the top of a gourd using an every day medium and a few different colour of dyes. The lower part of the gourd will be coloured using beautiful semi transparent inks.
