

Ben Stelter School Fundraiser

What Your School Is Supporting

BSSF is an independent, 100% student-led and student-administered fundraising campaign operating in support of the Ben Stelter Foundation. Schools participate to help children and families facing cancer while giving students meaningful, real-world leadership experience.

1. WHERE DO 100% OF THE FUNDS GO?

100% of funds raised through BSSF are donated in support of the Ben Stelter Centre for Proton Therapy and Neurosciences. The fundraising helps advance pediatric cancer care, clinical equipment, and the effort to bring Proton Beam Therapy to Canada.

No fundraising proceeds are directed to any professional sports team, league, athlete, or other sports organization.

2. WHO RUNS THE CAMPAIGN?

BSSF is run by our internal student team. Our team plans and administers the campaign, develops school resources, coordinates logistics, supports participating schools, and works directly with each school's Student Leaders and staff contacts.

Each participating school is supported by a BSSF Fundraising Coordinator. Students at the school are encouraged to take meaningful ownership of their own campaign, building communication, organization, teamwork, empathy, and event-planning skills.

Community partners and athlete ambassadors may help with prizes, appearances, or awareness, but they do not administer BSSF and do not receive fundraising proceeds.

3. WHAT DOES BSSF STAND FOR?

BSSF is grounded in compassion, inclusion, integrity, and the health, dignity, and safety of young people. The campaign is designed to bring students together around a cause greater than themselves: supporting children and families facing cancer, strengthening their communities, and using leadership to make a positive difference.

We believe every young person involved in BSSF should be treated with dignity and respect. Our student-led model is intended to create a welcoming environment where young people can learn, contribute, take responsibility, and see that their ideas and actions matter.

Support from a sponsor, athlete, team, or community partner does not mean that BSSF endorses or is responsible for that organization's personnel decisions, business operations, or conduct. A school's participation in BSSF should be understood for what it is: support for pediatric cancer care and youth leadership, not support for the unrelated decisions or activities of outside organizations.
