

Father God,

In the name of Jesus Christ, I come before You and take authority over every demonic spirit operating against this person's body and breath. Your Word says that Jesus came to destroy the works of the devil, and by the authority given through the blood of Jesus, I exercise that authority now.

I bind and rebuke every **python spirit** that is attempting to constrict, suffocate, and oppress their breathing. Every spirit that has tried to coil around their chest, throat, lungs, or diaphragm—I command you to release them now in the name of Jesus Christ. You have no legal right to remain.

I break every assignment of spiritual constriction, every spirit of heaviness, oppression, fear, anxiety, and suffocation that has partnered with this attack. I sever every demonic cord and command every coil of the enemy to unwind and come off their body now.

I command every spirit operating through the respiratory system to leave. Every spirit affecting the lungs, breath, throat, and chest—go now in Jesus' name. Loose them and go to the feet of Jesus to be judged and not return.

Father, I release the breath of the Holy Spirit into their lungs right now. Just as You breathed the breath of life into mankind, I decree a fresh breath of life, restoration, and healing over their respiratory system. Let every airway open, every tightness leave, and every place of constriction be restored.

I declare that their body is the temple of the Holy Spirit and no demonic spirit has permission to dwell there. I release peace over their body and mind. I command their breathing to come into divine order and alignment with the healing power of Jesus Christ.

Holy Spirit, fill every place that oppression tried to occupy. Let Your peace settle over their chest. Let Your presence bring calm to their breath. I release the fire and power of God to drive out every remaining unclean spirit and close every door the enemy tried to use.

I declare they are free.

I declare their breath is restored.

I declare the constricting work of the enemy is broken.

In the mighty name of Jesus Christ,

Amen
