

BEAUTÉDERM

Stall 1-A Main Gate, Villa Angela Subd.,
Sto. Domingo, Angeles City

MATERIAL SAFETY DATA SHEET

BCSM-MSDS-BD-CTS-JPJOB142020

SECTION 1 SUBSTANCE/PREPARATION AND COMPANY IDENTIFICATION

Product: CRISTAUX SUPREME SERUM
Variant: CRISTAUX SUPREME SERUM
Distributor: BEAUTEDERM CORPORATION
FDA Product Notification: NN-1000006152724
Use: Serum emulsion for facial application
Dosage form: 15 mL Emulsion

SECTION 2 COMPOSITION/INGREDIENTS

Ingredients: Aqua; Carbomer; Triethanolamine; Caesalpinia spinosa Gum; Polyethylene Glycol; Phenoxyethanol; Fragrance Oil (Rose RQ3338)

SECTION 3 HAZARD IDENTIFICATION

Observe Good Housekeeping Procedures. Not classified as Dangerous Goods or Components by the ASEAN Cosmetic Directives (ACD).

SECTION 4 FIRST-AID MEASURES

Eye: Immediately hold the eye(s) open and wash with fresh running water. Ensure complete irrigation of the eye by holding eyelids apart and away from the eye. If pain persists or recurs, seek medical attention.

Skin Contact: If irritation develops, discontinue use. Seek medical attention if irritation persists.

Inhalation: If fumes or combustion products are inhaled, remove to fresh air.

Ingestion: Immediately remove product from mouth and wash mouth out with plenty of water. Then provide water slowly as much as casualty can comfortably drink. If discomfort persists or symptoms develop, seek medical attention.

Comments: Treat according to casualty's condition and specifics of exposure

Advice to Physician: Treat symptomatically

SECTION 5 FIRE-FIGHTING MEASURES

- Extinguishing Media:** Non-flammable. Use CO₂, Dry Powder, or Foam-Type extinguishers. Extinguish fire by spraying into the base of flames. Do not use direct water jet on burning material.
- Special Measures:** Keep away from sources of ignition. Do not smoke. Wear positive pressure self-contained breathing apparatus and suitable protective clothing.
- Extinguishing Procedures:** Closed containers may build up pressure when exposed to heat and should be cooled with water spray.

SECTION 6 ACCIDENTAL RELEASE MEASURES

- Personal Precautions:** Do not take internally. Avoid direct contact with eyes. Use personal protective equipment (safety goggles, waterproof boots, suitable protective clothing) in case of major spillages.
- Environmental Precautions:** Keep away from drains, soil, surface and groundwater.
- Clean-Up Methods:** Remove all potential ignition sources. Contain spilled material. Cover for spillages with an inert or non-combustible inorganic absorbent material, sweep up and remove to an approved disposal container. Observe national, provincial and local disposal regulations.

SECTION 7 HANDLING AND STORAGE

- Storage Precautions:** Store at 30 degrees Celsius or lower in a cool, dry place—away from direct sunlight. Avoid contact with incompatible materials that support combustion, such as strong oxidizing agents.
- Handling:** It is vital that all who come into contact with large quantities of this material maintain high standards of personal and industrial hygiene (washing hands prior to eating or drinking, washing hands after smoking or going to the toilet). Build-up of vapors or mist in the working atmosphere must be prevented. Ensure adequate ventilation. Keep container or box sealed when not in use.

SECTION 8 EXPOSURE CONTROLS AND PERSONAL PROTECTION

- Exposure Guidelines:** None
- Engineering Controls:** None required with normal handling or consumer use

PERSONAL PROTECTIVE EQUIPMENT (PPE)

- Eye/Face Protections:** None required with normal handling or consumer use

Skin Protection: None required with normal handling or consumer use
Respiratory Protection: None required under normal conditions

SECTION 9 PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Viscous liquid
Description: Translucent liquid
Solubility in Water: Insoluble
pH (at 25 degrees Celsius): 9.00 - 10.00
Corrosiveness: Non-corrosive
Autoignition Temperature: Not Applicable
Odor: Rose scent
Materials to Avoid: Strong Oxidizers

SECTION 10 STABILITY AND REACTIVITY

Reactivity: Presents no significant reactivity hazards by itself or in contact with water. Avoid contact with strong acids, alkali or oxidizing agents.
Decomposition: Liable to cause smoke and acrid fumes during combustion. Carbon monoxide, Carbon dioxide and other non-identified organic compounds may be formed.

SECTION 11 TOXICOLOGICAL INFORMATION

No toxicity data is available for this product.

SECTION 12 DISPOSAL CONSIDERATIONS

Avoid disposing into drainage systems and into the environment. Seek expert advice.

SECTION 13 TRANSPORT INFORMATION

Product can withstand stress or pressure during its transport.

SECTION 14 OTHER INFORMATION

DISCLAIMER: The information stated herein is based on our current knowledge and is intended to describe the product for purposes of health, safety, and environmental requirements only. BEAUTÉDERM Corporation makes no representation, guarantee or warranty, expressed or implied, as to the accuracy, reliability or completeness of the information and assumes no responsibility for injury, damage, or loss resulting from the use of the product or any information contained herein. BEAUTÉDERM Corporation cannot anticipate or control the specific conditions under which the product may be used. Each user must, prior to use, review this document within the context of how the user intend to use of the product.
