

***At Last...
a device that
absolutely prevents
flag furling and
wrapping, and most
importantly, actually
works!***

- ◆ ***Foolproof***
- ◆ ***Inexpensive***
- ◆ ***Easy to Install***

NeverFurl®

*The Flag
Non-Furling Device*

www.neverfurl.com

**With NeverFurl® the
wind will never wrap
your flag around the
flagpole again. You can
now fly your flag all day
long, everyday of the
year.**

NeverFurl®

*The Flag
Non-Furling Device*

**Made
in the
U.S.A.**

*Never Furl package components
(Available in white or black molded plastic)*

Compare for yourself to other products on the market, including so-called spinner flags and see the difference with this unique, innovative design!

NeverFurl® *The Flag Non-Furling Device*

KEY PRODUCT FEATURES

Simple to install

Mounts easily on all standard 3/4", 1", 1.5" and 2" diameter flagpoles

Works on flagpoles made of any material and any length

Works equally well on Vertical, Outrigger or Horizontal poles

Can be used on tapered or telescoping poles

Works regardless of changes in wind speed and direction

Works with all size flags

Can be used with grommet or hemmed flags and banners

Will not rust or stain flags and banners

Material is made from high grade plastics with UV blocking added

Available in both white and black molded plastic

Packaged separately or in complete aluminum or fiberglass pole sets (with brass acorn, pole and bracket)

Allows flags at half mast, if needed
