

Licensed 2-6 Year Old Private School

Mountain View Montessori is...

1. **An authentic Montessori preschool and kindergarten.**
2. **Committed to following the needs of each child. This includes developing each individual child's social/emotional skills, language, mathematical, cultural, and both fine and gross motor skills.**
3. **Determined to preserve the health and safety of our students and staff.**
4. **Proud to have an outstanding staff of Montessori trained and licensed staff.**
5. **Home to a tight knit community of families that believe in the Montessori Philosophy and the teachings of Dr. Montessori.**

More Than Meets the Eye

Large, Spacious Classrooms and Large Outdoor Areas

Authentic Montessori Environment

An authentic Montessori environment consists of the following:

- A clean, organized, and child sized environment.
- All classrooms contain the areas of Practical Life, Sensorial, Cultural, Language, and Mathematics.
- Children work independently, with freedom of movement.
- Researched based, hands on, concrete materials. Arranged in a scaffold based on easy to challenging, right to left, top to bottom
- A calm, quiet, slow paced learning environment.

An authentic Montessori approach consists of the following:

- The teacher is considered the guide through the materials.
- The guide gives each child an individual lesson on each of the materials (work), then observes as the child revisits the work and comes to a mastery of each one.
- The guide assess each child through observation and documentation.
- The child will move from the concrete to more abstract learning as they master the work.

School Safety

Front door only accessible to staff and families.

MVM has a solid brick outer perimeter with metal gates that lock at the top.

Other safety measures include families signing children in and out, consistent child head count throughout the day, fire drills, and lockdown drills.

We also ID any unknown adult picking up a child.
