

## Exploring Our Earth

### G' Day Mate! Join us on an exploration of Australia!

This summer we will be discovering the continent of Australia. From the Great Barrier Reef to the Outback we will study the animals, culture, plants, and landscape of this amazing continent! We hope you will join us on this ace adventure!

- × Pizza and Wacky Water Day Fridays!

# SUMMER PROGRAM

## Things to Remember

- State shot record, Sunscreen Release Form & Summer Application are all due on the first day of summer.
- Monthly payment is due the first Monday of the month.
- Sibling discounts are not available during summer sessions.

### Pre-Primary Program (2-4 year olds)

During our summer program, we encourage growth and independence in a fun, safe, and relaxed atmosphere. Your child will get positive social interactions that will help with the development of their language and social skills. Our environment is fit to their size so that they may succeed in becoming self-sufficient each and every day. We will help each child in gaining confidence through a fun and exciting hands-on Montessori experience!

### Preschool program (3 - 6 year olds)

Success is directly related to the heights in which children believe they are capable of aspiring to. We set the pattern for a lifetime of good work habits, self-sufficiency and a sense of responsibility. During the summer, the children will not only learn how to be successful learners, but they can also enjoy fun activities with art, crafts, cooking, science, nature, and water.

### \*Jumpstart program (Kindergarten age 5-6 year olds) -

Enhance your child's opportunity to learn during our 4-week Jumpstart program. Language, handwriting skills, and reading will be focused on, along with an introductory to telling time and learning about money. This is taught through hands-on Montessori materials and fun activities.
