AI AND STRUCTURAL TRANSFORMATIONS

SERAP LLC

gLOCAL EVALUATION WEEK powered by GEI

#gLOCAL2024

We are excited to introduce a half-day seminar focusing on the pivotal role of augmented intelligence in predicting, monitoring, and evaluating large-scale structural transformations in developing countries.

The seminar session will revolve around the core issues related to AI in the evolving landscape.

Join us for this timely and essential seminar, to gain a deeper understanding of how AI is reshaping the monitoring and evaluation landscape in developing countries.
