Gentlemen:

THE ASPHALT CRISIS

Lake Erie Asphalt Products, Inc. recently sent you a copy of its July newsletter, LEAP Facts, in which we charged that oil companies are getting an unfair price for asphalt.

Cleveland area television, radio and newspaper reporters have given our cause exceptionally good exposure in the area, but to date we have generated no response from government officials or the oil companies.

Please take the time to review the enclosed material. We await your response and opinion.

As a concerned public official, your assistance is a necessary element in our campaign to save the asphalt industry.

Yours very truly,

LAKE ERIE ASPHALT PRODUCTS INC.
