WHEREAS, response to and recovery from major emergencies and disasters requires integrated professional management and coordination; and

WHEREAS, the President of the United States directed the Secretary of the Department of Homeland Security to develop and administer a National Incident Management System (NIMS) to standardize and enhance incident management procedures nationwide; and

WHEREAS, the NIMS provides a structure and process to effectively coordinate responders from multiple disciplines and levels of government and to integrate them with resources from the private sector and non-governmental organizations; and

WHEREAS, use of the NIMS, which has as a key component the Incident Command System (ICS), will improve the Village of Spencer's ability to manage major emergencies and disasters; and
