

It's no secret that a silicone roof coating is a great way to add life to a failing roof. But how can it help your building specifically? Here are a couple benefits to putting a PM Premium Coating System on your roof:

Cost Savings

A PM Premium Coating System silicone roof restoration can **save you 60% or more** vs. the cost of a roof replacement.

Decades of Protection

With **warranties up to 20 years**, a PM Premium Coating System can add decades of life to your roof.

No Facility Closures

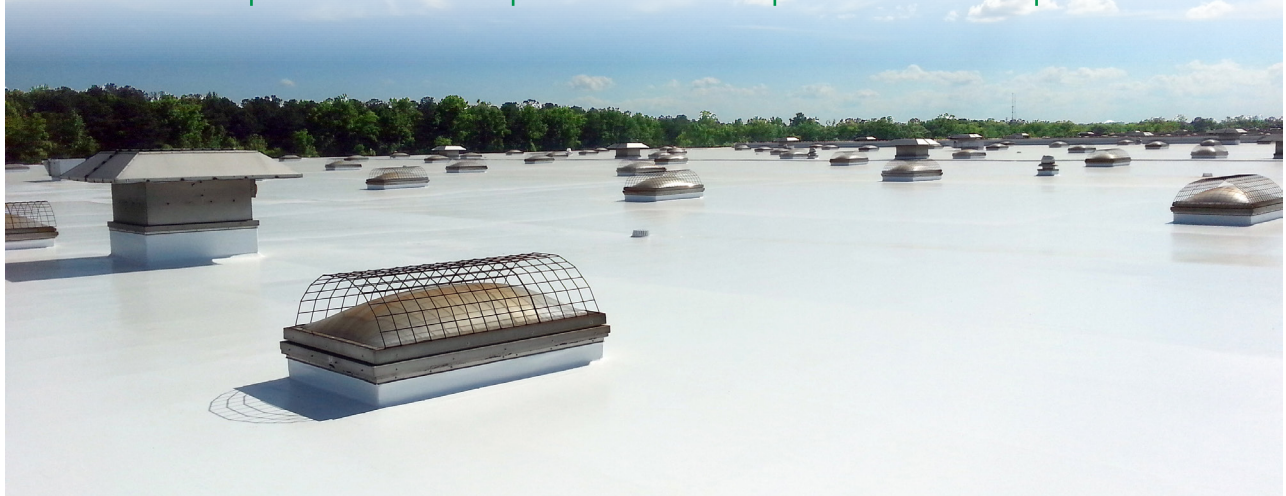

You won't have to shut down production in your facility as a PM Premium Coating System is **applied directly over the current roof**.

Lower Energy Costs

A white PM Premium Coating System can **cut your energy costs by 20% overnight**.

Save Your HVAC

Reduce wear and tear and **add years of life to your HVAC systems** with a white PM Premium Coating System.
