

Peach

Terms and Conditions

Operated by Britt's Bots

Effective date: August 19, 2026

This document is intended to describe Peach's current service terms and is not legal advice.

1. Acceptance of Terms

By installing, accessing, configuring, or using Peach (the "Service"), you agree to these Terms and Conditions. If you do not agree, do not use the Service. Server owners and administrators are responsible for ensuring their use of Peach complies with Discord's rules and any laws or policies applicable to their communities.

2. About Peach

Peach is a companion Discord bot operated by Britt's Bots. Peach provides collection tracking, server alerts, personal direct-message alerts, missing-character list tools, favorites, release information, forecasts, event-related features, premium features, and other community utilities. Peach is independently operated and is not affiliated with, endorsed by, or sponsored by Nintendo, Discord, or the operators of third-party bots or services that Peach may observe or interoperate with.

3. Eligibility and Discord Account

You must be permitted to use Discord and the server in which Peach is installed. You are responsible for your Discord account, server permissions, configuration choices, and any actions taken through your account.

4. Server Installation and Permissions

Peach may require Discord permissions such as viewing channels, sending messages, embedding links, attaching files, reading message history, and using external emojis. Server administrators control Peach's permissions and may remove the bot at any time. Some features may not function when required permissions are unavailable.

5. Acceptable Use

You may not use Peach to violate Discord's Terms or policies, interfere with the Service, attempt unauthorized access, abuse automated features, evade restrictions, exploit bugs, harass others, distribute malicious content, or use the Service for unlawful purposes. Britt's Bots may restrict access to protect users, servers, infrastructure, or the integrity of the Service.

6. Collection and Alert Features

Peach relies on Discord events and supported message formats to provide tracking and alert features. Third-party message formats can change without notice. Britt's Bots does not guarantee that every appearance, collection result, event, release, or other third-party action will be detected or processed. Unsupported or unverified protocols may be disabled until they can be implemented safely.

7. User Lists and Configuration

Peach may allow users to maintain server-specific and global character lists, favorites, selected servers, alert modes, pause or snooze settings, and related preferences. Users are responsible for reviewing their settings and list contents. Peach may normalize character identifiers and reject values that are not part of its authoritative registry.

8. Premium Features

Some Peach features may require a paid or otherwise eligible Premium entitlement. Premium availability, pricing, features, and eligibility may change. Unless required by applicable law or the applicable payment platform's rules, access to a Premium feature is not guaranteed indefinitely.

9. Availability and Changes

Peach is provided on an as-available basis. Features may be modified, renamed, disabled, suspended, or discontinued. Maintenance, Discord outages, API changes, third-party bot changes, hosting failures, or other circumstances may interrupt service.

10. No Warranty

To the maximum extent permitted by law, Peach is provided "as is" and "as available" without warranties of any kind, express or implied. Britt's Bots does not warrant uninterrupted operation, error-free results, permanent data retention, or compatibility with third-party services.

11. Limitation of Liability

To the maximum extent permitted by applicable law, Britt's Bots and its operators will not be liable for indirect, incidental, special, consequential, or punitive damages, lost data, lost profits, lost opportunities, or losses resulting from use of or inability to use Peach.

12. Intellectual Property

Peach's original software, branding, documentation, and service design are owned by or licensed to Britt's Bots. Third-party names, characters, artwork, trademarks, and other intellectual property remain the property of their respective owners. References to third-party properties are for identification and interoperability purposes and do not imply affiliation.

13. Suspension and Termination

Britt's Bots may suspend or terminate access to Peach when reasonably necessary for security, abuse prevention, legal compliance, service integrity, or discontinuation of the Service. Users may stop using Peach at any time, and server administrators may remove Peach from their servers.

14. Changes to These Terms

These Terms may be updated as Peach evolves. Material changes may be communicated through appropriate Britt's Bots or Peach channels. Continued use after an updated effective date constitutes acceptance of the revised Terms where permitted by law.

15. Contact

Questions, support requests, or requests concerning these Terms may be submitted through the official Britt's Bots support channels.
