

THE BANKER

Complete User & Administrator Manual

Server Setup • Staff Configuration • Member Commands • Games • Rumble Systems • Troubleshooting • Page Index

Current build documentation

How to Use This Manual

This manual is organized by feature category instead of being only a command dump. Each category explains what the feature does, how administrators configure it, what members can do with it, and which commands belong to it. The final Glossary & Page Index tells you which page to turn to for a feature or command.

Recommended Server Setup Order

- Run `/setup` first to establish currency, the daily reward, default Rumble payout, and approved staff roles.
- Review `/current-settings` and `/admin-settings` before configuring optional systems.
- Configure economy rewards and logging, then shop/inventory if your server uses them.
- If you use Rumble Royale, configure payouts, winner roles, lobby pings, triggers, reminders, Rumble Next, and Rumble Grind.
- Configure optional games, Casino wager limits, lotteries, Teller Time, ATM Drops, and Holiday Drops.
- Use `/help` inside Discord for the built-in category browser.

1. Core Setup & General

Start here when adding Banker to a server. These commands establish the server's base currency configuration, approved staff roles, general settings, built-in help, and donation information.

Setup / usage notes

- Run /setup first.
- Immediately review /current-settings and /admin-settings.
- Use /help whenever you need the in-Discord category browser.

Commands in this category

/help

Browse The Banker commands by category.

/setup

Configure currency, daily rewards, rumble payout, and staff roles.

Parameter	Type	Default	What it does
currency_name	str	required	What your currency is called (ex: Confused Coin)
currency_emoji	str	required	Emoji for currency (ex: <:coin:123> or 🍀)
daily_amount	int	required	How much members get from /daily
rumble_amount	int	required	How much the winner gets from Rumble Royale
approved_role_1	Optional[discord.Role]	None	Optional staff role #1 that can manage currency and shop
approved_role_2	Optional[discord.Role]	None	Optional staff role #2 that can manage currency and shop

/current-settings

Show current Banker settings for this server.

/admin-settings

Owner/Admin: summarize all non-Rumble Banker settings for this server.

/donate

Support The Banker and keep the system running strong.

2. Economy & Accounts

This category controls how members earn, store, move, spend, and lose currency. The wallet is spendable; the protected account is separate and protected from /rob. Economy settings affect the value and pace of the entire server economy.

Setup / usage notes

- Staff should set reward amounts and cooldowns before promoting the economy.
- Use logging for an audit trail of payouts and deductions.
- Members can deposit into the protected account and withdraw back to the wallet.

Commands in this category

/booster-payout

Staff/Admin: set server boost payout amount and (optional) announce channel.

Parameter	Type	Default	What it does
amount	int	required	How much to pay a member when they boost (set 0 to disable)
channel	Optional[discord.TextChannel]	None	Optional: channel to announce boost payouts

/bump-payout

Staff/Admin: set the Disboard bump channel and payout amount.

Parameter	Type	Default	What it does
channel	discord.TextChannel	required	Channel where Disboard posts the 'Bump done!' embed
amount	int	required	How much to pay the member who bumped (set 0 to disable payouts)

/log-channel

Owner/Admin: set a log channel for Banker payouts/deductions.

Parameter	Type	Default	What it does
channel	Optional[discord.TextChannel]	None	Channel to send balance logs to (leave empty to disable)

/cooldown-reset

Owner/Admin: reset a member's cooldown for a feature.

Parameter	Type	Default	What it does
member	discord.Member	required	Member to reset
feature	app_commands.Choice[str]	required	Which feature cooldown to reset

/daily

Claim your daily currency reward.

/weekly

Claim your weekly currency reward.

/monthly

Claim your monthly currency reward.

/work

Work a shift and earn server currency.

/beg

Beg The Banker for a small currency payout.

/rob

Attempt to rob currency from another member.

Parameter	Type	Default	What it does
member	discord.Member	required	Member to rob

/economy-set

Staff: configure reward amounts, cooldowns, and rob settings.

Parameter	Type	Default	What it does
command	app_commands.Choice[str]	required	Economy command to configure
min_amount	Optional[int]	None	Minimum payout for daily/weekly/monthly/work/beg
max_amount	Optional[int]	None	Maximum payout for daily/weekly/monthly/work/beg
cooldown_minutes	Optional[int]	None	Cooldown in minutes
enabled	Optional[bool]	None	Enable or disable this command
success_rate	Optional[int]	None	Rob only: success percentage, 0-100
steal_min	Optional[int]	None	Rob only: minimum steal amount
steal_max	Optional[int]	None	Rob only: maximum steal amount
protection_minutes	Optional[int]	None	Rob only: target protection after being robbed
min_wallet_required	Optional[int]	None	Rob only: target must have at least this much

/economy-view

Staff: view configured economy reward amounts and cooldowns.

/economy-preset

Staff: apply a full economy reward preset.

Parameter	Type	Default	What it does
preset	app_commands.Choice[str]	required	Preset to apply

/account

View your wallet, protected account, and total net worth.

/deposit

Move currency from your wallet into your protected account.

Parameter	Type	Default	What it does
amount	str	required	Amount to deposit, or 'all'

/withdraw

Move currency from your protected account back to your wallet.

Parameter	Type	Default	What it does
amount	str	required	Amount to withdraw, or 'all'

/transfer

Transfer your server currency to another member.

Parameter	Type	Default	What it does
member	discord.Member	required	Who receives the currency
amount	int	required	How much to transfer

/wallet

View a member's balance and inventory in one command.

Parameter	Type	Default	What it does
member	Optional[discord.Member]	None	Optional: view someone else's wallet (staff only)

/richest

Show a list of the top 10 richest members in the server.

/give-coins

Staff: give coins to a member.

Parameter	Type	Default	What it does
member	discord.Member	required	Who receives it
amount	int	required	How many coins to give

/give-role-coins

Staff: give coins to every non-bot member with a specific role.

Parameter	Type	Default	What it does
role	discord.Role	required	Role whose members should receive the coins
amount	int	required	How many coins to give each member

/remove-coins

Staff: remove coins from a member.

Parameter	Type	Default	What it does
member	discord.Member	required	Who loses coins
amount	int	required	How many coins to remove

/clear-wallets

Admin: reset all current server member balances after confirmation.

Parameter	Type	Default	What it does
include_inventory	bool	False	Also clear inventory items for current server members. Defaults to false.

3. Shop & Inventory

The shop converts server currency into stored inventory items. Staff controls stock and discounts; members purchase from /shop. Up to three discount roles can be configured, and the highest matching discount is used.

Setup / usage notes

- Stock items before directing members to /shop.
- Use discount-view to audit role discounts.
- Inventory grants/removals are staff tools.

Commands in this category

/shop

Purchase an item from the shop (Qty: 1 per purchase).

/shop-discount

Staff/Admin: set or update a shop discount role. Up to 3 roles per server.

Parameter	Type	Default	What it does
role	discord.Role	required	Role that should receive the discount
percent	int	required	Discount percent to apply at purchase time

/shop-discount-view

Staff/Admin: view configured shop discount roles.

/shop-discount-clear

Staff/Admin: remove a shop discount role.

Parameter	Type	Default	What it does
role	discord.Role	required	Discount role to remove

/shop-stock

Staff/Admin: add an item to the shop.

Parameter	Type	Default	What it does
item_name	str	required	Item name
price	int	required	Price
item_emoji	Optional[str]	None	Optional emoji shown next to the item in the dropdown
description	Optional[str]	None	Optional description

/shop-unstock

Staff/Admin: remove shop items from stock.

/give-item

Staff: give a shop item for free.

Parameter	Type	Default	What it does
member	discord.Member	required	Who receives it

/remove-item

Staff: remove an item from a member (dropdown, qty=1).

Parameter	Type	Default	What it does
member	discord.Member	required	Who loses the item

4. Rumble Royale

Banker can sit alongside Rumble Royale to pay winners, grant winner roles, track collections, post lobby pings and custom trigger embeds, send battle-end reminders, and maintain win leaderboards.

Setup / usage notes

- Configure payout scopes and winner roles before relying on automatic awards.
- Lobby pings can include multiple roles.
- Use winner-role-view and the Rumble panel to audit configuration.
- Members use /roles won and /roles leaderboard to track winner-role collections.

Commands in this category

/rumble reminder

Choose who is pinged after a manual Rumble battle ends.

Parameter	Type	Default	What it does
mode	app_commands.Choice[str]	required	Disabled, ping the battle starter, or ping a configured role

/rumble reminder-role

Set the role pinged after manual Rumble battles in Ping Role mode.

Parameter	Type	Default	What it does
role	discord.Role	required	Role to ping after a manual battle ends

/rumble reminder-view

View this server's Rumble battle-end reminder settings.

/rumble winner-role-order

Move a Rumble winner role to a custom position in /roles won.

Parameter	Type	Default	What it does
role	discord.Role	required	Configured Rumble winner role to move
position	app_commands.Range[int, 1, 500]	required	Display position starting at 1

/rumble winner-role-view

Audit Rumble channels and the winner role assigned to each one.

/roles won

See which Rumble winner roles you have collected and still need.

Parameter	Type	Default	What it does
category	Optional[discord.CategoryChannel]	None	Optional: show winner roles from only this Rumble category

/roles leaderboard

Leaderboard for members with the most Rumble winner roles.

Parameter	Type	Default	What it does
scope	app_commands.Choice[str]	required	Show all winner roles or only roles tied to one category
category	Optional[discord.CategoryChannel]	None	Required when scope is Category
limit	Optional[app_commands.Range[int, 1, 25]]	10	How many members to show, default 10

/rumble panel

Open the Rumble Royale control panel.

/rumble leaderboard

Show Rumble Royale win leaderboard by server, category, or channel.

Parameter	Type	Default	What it does
scope	app_commands.Choice[str]	required	Leaderboard scope: whole server, channel, or category
start_date	Optional[str]	None	Optional start date in YYYY-MM-DD format
end_date	Optional[str]	None	Optional end date in YYYY-MM-DD format
minutes	Optional[int]	None	Optional recent timeframe: past X minutes
hours	Optional[int]	None	Optional recent timeframe: past X hours
channel	Optional[discord.TextChannel]	None	Optional channel to filter by
category	Optional[discord.CategoryChannel]	None	Optional category to filter by
channel_id	Optional[str]	None	Optional channel ID if the selector does not show it
category_id	Optional[str]	None	Optional category ID if the selector does not show it

/rumble winner-embed

Customize what The Banker shows in Rumble winner embeds.

Parameter	Type	Default	What it does
enabled	Optional[bool]	None	Turn The Banker's custom Rumble winner message on/off
payout	Optional[bool]	None	Show the payout/reward amount on winner embeds
new_balance	Optional[bool]	None	Show the winner's new wallet balance after payout
winner_role	Optional[bool]	None	Show winner role grants on winner embeds
server_wins	Optional[bool]	None	Show how many Rumble wins the user has in this server
global_wins	Optional[bool]	None	Show how many Rumble wins the user has globally
tracked_footer	Optional[bool]	None	Show The Banker's total tracked Rumble count in the footer
image	Optional[discord.Attachment]	None	Optional custom image to display on Rumble winner embeds
image_url	Optional[str]	None	Optional direct image URL (use 'clear' to remove the custom image)
reset	Optional[bool]	False	Reset all options back to showing everything

5. Rumble Next

Rumble Next tells members which battle channel comes next. It supports one Whole Server route, separate Category loops, and named Route Groups that can span categories.

Setup / usage notes

- Choose the routing mode that matches the server layout.
- Set channel order and start point carefully.
- Use `/rumble-next-all` to audit every participating channel.
- Rumble Next can work even when no lobby ping role is configured.

Commands in this category

`/rumble-next-add`

Add a channel to the server-wide Rumble next-channel route.

Parameter	Type	Default	What it does
channel	discord.TextChannel	None	Optional. Leave blank to add the channel where this command is used.

`/rumble-next-remove`

Remove a channel from the server-wide Rumble next-channel route.

Parameter	Type	Default	What it does
channel	discord.TextChannel	required	Channel to remove.

`/rumble-next-move`

Move a channel to a route position.

Parameter	Type	Default	What it does
channel	discord.TextChannel	required	Channel to move.
position	int	required	Position number starting at 1.

`/rumble-next-set-start`

Make a channel the first/start channel in the route.

Parameter	Type	Default	What it does
channel	discord.TextChannel	required	Starting channel.

`/rumble-next-mode`

Choose Whole Server routing or separate Category loops.

Parameter	Type	Default	What it does
mode	app_commands.Choice[str]	required	Whole Server uses one route across all categories; Category loops each category within itself.

`/rumble-next-emoji`

Set the emoji/text shown before the next-channel message.

Parameter	Type	Default	What it does
emoji	str	required	Example: 🟩

`/rumble-next-enable`

Enable next-channel routing.

`/rumble-next-disable`

Disable next-channel routing.

`/rumble-next-clear`

Clear the full next-channel route.

/rumble-next-group create

Create an independent multi-category Rumble Next loop.

Parameter	Type	Default	What it does
name	str	required	Route group name, for example Team Games.

/rumble-next-group add

Add a channel to an independent route group.

Parameter	Type	Default	What it does
name	str	required	Route group name.
channel	discord.TextChannel	None	Channel to add. Leave blank to use the current channel.

/rumble-next-group remove

Remove a channel from a route group.

Parameter	Type	Default	What it does
name	str	required	Route group name.
channel	discord.TextChannel	required	Channel to remove.

/rumble-next-group move

Move a channel to a different position inside a route group.

Parameter	Type	Default	What it does
name	str	required	Route group name.
channel	discord.TextChannel	required	Channel to move.
position	int	required	New position, starting at 1.

/rumble-next-group set-start

Make a channel the first channel in a route group.

Parameter	Type	Default	What it does
name	str	required	Route group name.
channel	discord.TextChannel	required	Channel that should be first.

/rumble-next-group emoji

Set the Next-message emoji for one route group.

Parameter	Type	Default	What it does
name	str	required	Route group name.
emoji	str	required	Emoji or short text, for example 🟩.

/rumble-next-group delete

Delete an independent route group.

Parameter	Type	Default	What it does
name	str	required	Route group name to delete.

/rumble-next-group view

View named Rumble Next route groups and their channel order.

Parameter	Type	Default	What it does
name	str	None	Optional route group name. Leave blank to view all groups.

/rumble-next-view

View the server-wide next-channel route.

`/rumble-next-all`

View every channel currently using any Rumble Next route in this server.

6. Rumble Grind

Rumble Grind creates personal battle rooms from a launcher. It integrates with Rumble start/end handling and restores persistent controls after restarts.

Setup / usage notes

- Post the launcher in the intended category.
- Choose a ping role only if you want battle notifications.
- Use normal permission troubleshooting if rooms cannot be created or controlled.

Commands in this category

`/rumble grind-setup`

Staff/Admin: post the Rumble Grind room launcher for a category.

Parameter	Type	Default	What it does
category	Optional[discord.CategoryChannel]	None	Category where temporary grind rooms should be created
category_id	Optional[str]	None	Optional fallback: paste the category ID if the category selector does not show it
ping_role	Optional[discord.Role]	None	Role to ping when battles start in grind rooms

7. Dice Dividend

Dice Dividend is a once-per-24-hours dice game with up to three rolls. Players can hold dice between rolls. Staff configures the payout table; members play and can view the leaderboard.

Setup / usage notes

- Configure payouts before launch.
- Members should use holds strategically between rolls.
- Leaderboard results are server-specific.

Commands in this category

/dd - payout

Staff/Admin: configure Dice Dividend payouts for this server.

Parameter	Type	Default	What it does
jackpot_5kind	Optional[int]	None	Payout for 5 of a kind
large_straight	Optional[int]	None	Payout for large straight (5 in a row)
four_kind	Optional[int]	None	Payout for 4 of a kind
full_house	Optional[int]	None	Payout for full house (3+2)
small_straight	Optional[int]	None	Payout for small straight (4 in a row)
three_kind	Optional[int]	None	Payout for 3 of a kind
two_pair	Optional[int]	None	Payout for two pair
one_pair	Optional[int]	None	Payout for one pair
bonus_high_total	Optional[int]	None	Bonus for total 25+
bonus_huge_total	Optional[int]	None	Bonus for total 30+
bonus_all_different	Optional[int]	None	Bonus when all five dice are different
bonus_lucky_ledger	Optional[int]	None	Bonus when total equals 7, 17, or 27

/dicedividend

Play Dice Dividend (up to 3 rolls). 1× per 24 hours.

/dd - leaderboard

Show the Dice Dividend leaderboard for this server.

8. Loan Shark / Shark Attack

The Loan Shark is Banker's existing slot-style game. It remains separate from the newer /casino framework and has its own enable/bet setup, jackpot funding, rules, and one-player-at-a-time behavior.

Setup / usage notes

- Use /sharksetup to enable it and choose allowed bets.
- Fund the jackpot separately with /sharkjackpot-add.
- Members can read /loansharkhelp before playing.

Commands in this category

/sharksetup

Admin: enable/disable The Loan Shark and select allowed bet amounts.

/sharkjackpot-add

Admin: add coins to the Loan Shark jackpot pool.

Parameter	Type	Default	What it does
amount	int	required	How many coins to add to the jackpot pool (must be 1 or more)

/loansharkhelp

Learn how The Loan Shark works: payouts, jackpot rules, and Shark Attacks.

/loan-shark

Play The Loan Shark (slot machine). One player at a time per server.

9. Casino

The /casino system contains nine games using the existing Banker wallet. Administrators can enable or disable individual games and set wager limits. Every game has a private How to Play button. Members can also clear a stuck abandoned session with /casino cancel; admins can clear another member with /casino cancel-member.

Setup / usage notes

- Set minimum and maximum wagers with /casino settings.
- Disable any game that does not fit your server economy.
- Money Wheel, Roulette, and Horse Racing use animated presentations; card/dice games update only when the visible state changes.
- Stale active-game locks are recoverable and should not trap a member indefinitely.

Casino games

All Casino games use the member's Banker wallet. Every game has a private How to Play button explaining its rules and payouts. The Casino recovery commands exist specifically so an abandoned interactive session cannot leave a member permanently locked out.

Commands in this category

/casino blackjack

Start a Blackjack hand against The Banker using the wager you enter. Use Hit, Stand, or Double Down as the hand progresses. Aces are handled as 1 or 11 as appropriate. The table image changes only when the hand state changes.

Parameter	Type	Default	What it does
bet	app_commands.Range[int, 1, 1000000000]	required	Amount of server currency to wager

/casino video-poker

Play Jacks or Better. Five cards are dealt, you select which cards to HOLD, then Draw replaces the others and evaluates the final poker hand.

Parameter	Type	Default	What it does
bet	app_commands.Range[int, 1, 1000000000]	required	Amount of server currency to wager

/casino roulette

Place a wager on the supported European single-zero roulette bet types. The graphical wheel spins to the predetermined result; the animation is presentation and does not alter the selected outcome.

Parameter	Type	Default	What it does
bet	app_commands.Range[int, 1, 1000000000]	required	Amount to wager
bet_type	app_commands.Choice[str]	required	Outside bet type
number	Optional[app_commands.Range[int, 0, 36]]	None	Required only for Straight Number

/casino craps

Play Pass Line or Don't Pass craps. The game establishes and resolves a point according to the implemented rules. Dice graphics update when a new roll is actually needed.

Parameter	Type	Default	What it does
bet	app_commands.Range[int, 1, 1000000000]	required	Amount to wager
line	app_commands.Choice[str]	required	Choose your line bet

/casino horse-racing

Choose one of six horses at Banker Downs. Odds are shown before the race; the race animation presents the already-determined result.

Parameter	Type	Default	What it does
bet	app_commands.Range[int, 1, 1000000000]	required	Amount to wager

/casino baccarat

Wager on Player, Banker, or Tie. Banker automatically applies the card-drawing rules and resolves the hand.

Parameter	Type	Default	What it does
bet	app_commands.Range[int, 1, 1000000000]	required	Amount to wager
side	app_commands.Choice[str]	required	Side to bet on

/casino money-wheel

Spin the Banker-themed multiplier wheel. The wheel uses a smooth animated presentation, equal-looking visual slices, a pointer aimed toward the wheel, and Spin Again / Change Bet controls. Visual slice size is not the probability table.

Parameter	Type	Default	What it does
bet	app_commands.Range[int, 1, 1000000000]	required	Amount to wager

/casino high-card

Play the supported High Card / card-prediction modes. The result card remains displayed instead of looping an animation.

Parameter	Type	Default	What it does
bet	app_commands.Range[int, 1, 1000000000]	required	Amount to wager
mode	app_commands.Choice[str]	required	Choose the card bet

/casino sic-bo

Wager on the supported three-dice Sic Bo bet types. The three dice settle on the actual result and remain visible.

Parameter	Type	Default	What it does
bet	app_commands.Range[int, 1, 1000000000]	required	Amount to wager
bet_type	app_commands.Choice[str]	required	Type of Sic Bo bet
number	Optional[app_commands.Range[int, 1, 17]]	None	Total (4–17) or single die number (1–6), when required

/casino cancel

Member recovery command that clears their own stuck or abandoned active Casino game in that server. It does not blindly refund an unverified wager.

/casino cancel-member

Admin recovery command that clears another member's stuck or abandoned active Casino game in that server.

Parameter	Type	Default	What it does
member	discord.Member	required	Member whose active Casino game should be cleared

/casino stats

Shows the member's casino activity and results across the supported casino games.

Parameter	Type	Default	What it does
member	Optional[discord.Member]	None	Use the Discord command prompt for this value.

/casino settings

Admin configuration for enabling/disabling individual casino games and setting the server minimum and maximum wager.

Parameter	Type	Default	What it does
blackjack	Optional[bool]	None	Enable/disable Blackjack
roulette	Optional[bool]	None	Enable/disable Roulette

Parameter	Type	Default	What it does
video_poker	Optional[bool]	None	Enable/disable Video Poker
craps	Optional[bool]	None	Enable/disable Craps
horse_racing	Optional[bool]	None	Enable/disable Horse Racing
baccarat	Optional[bool]	None	Enable/disable Baccarat
money_wheel	Optional[bool]	None	Enable/disable Money Wheel
high_card	Optional[bool]	None	Enable/disable High Card
sic_bo	Optional[bool]	None	Enable/disable Sic Bo
min_bet	Optional[app_commands.Range[int, 1, 1000000000]]	None	Minimum wager
max_bet	Optional[app_commands.Range[int, 1, 1000000000]]	None	Maximum wager

10. Royale Rollers

Royale Rollers is Banker's elimination/bracket game with lobbies, bounties, multiple modes, profiles, leaderboard, rules, staff force-advance, cleanup, and restart/resume behavior.

Setup / usage notes

- Create the lobby with the desired mode and dice count.
- Hosts award described prizes manually where the command says so.
- Staff cleanup/force-advance commands are recovery tools.

Commands in this category

`/royale create`

Create a Royale Rollers lobby.

Parameter	Type	Default	What it does
mode	app_commands.Choice[str]	required	Choose elimination, duel, lazy elimination, or lazy duel mode
dice_count	app_commands.Choice[int]	required	Choose 2 or 3 dice
prize_text	str	required	Describe the prize(s). Host awards manually.
auto_start	Optional[bool]	True	Auto-start after 10 minutes
elimination_count	Optional[int]	None	Fixed eliminations per round (elimination mode only)

`/royale bounty`

Place a Royale Rollers bounty on a joined lobby player.

Parameter	Type	Default	What it does
target	str	required	Search joined players only
bounty_type	app_commands.Choice[str]	required	Choose how this bounty is claimed
prize_text	str	required	Describe the bounty prize. Host awards manually.

`/royale start`

Start the current Royale Rollers lobby early.

`/royale cancel`

Cancel the current Royale Rollers lobby or match.

`/royale profile`

View a Royale Rollers profile.

Parameter	Type	Default	What it does
member	Optional[discord.Member]	None	Optional member to view

`/royale leaderboard`

View the Royale Rollers leaderboard.

`/royale rules`

Show Royale Rollers rules.

`/royale force_advance`

Staff/admin: force-resolve the current Royale Rollers round.

`/royale cleanup`

Staff/admin: clean up stale Royale Rollers state in this server.

11. Lottery

Banker lotteries are channel-based weighted-ticket lobbies. Staff chooses buy-in, winner count, duration, optional ping, entry limits, minimum participation, tax, and bonus pot. The bot resolves the draw and payout automatically.

Setup / usage notes

- Set a minimum entry count if you want automatic refunds when participation is too low.
- Use bonus to add staff-funded value to an active pot.
- Cancel refunds active entries; reroll is for replacing an ineligible completed winner.

Commands in this category

/lottery create

Open a Banker lottery lobby with button entry and automatic payout.

Parameter	Type	Default	What it does
buy_in	app_commands.Range[int, 1, 2000000000]	required	Currency cost per ticket/entry
winners	app_commands.Range[int, 1, 25]	required	Number of winners to draw
days	app_commands.Range[int, 0, 30]	0	Days until the lottery ends
hours	app_commands.Range[int, 0, 23]	0	Hours until the lottery ends
minutes	app_commands.Range[int, 0, 59]	10	Minutes until the lottery ends
title	Optional[str]	None	Optional lottery title
description	Optional[str]	None	Optional message shown on the lottery embed
ping_role	Optional[discord.Role]	None	Optional role to ping above the lottery lobby
max_entries_per_user	app_commands.Range[int, 0, 100000]	0	Optional cap per user. Use 0 for no limit.
min_entries_required	app_commands.Range[int, 1, 100000]	1	Minimum tickets sold or the lottery refunds instead of drawing.
house_tax_percent	app_commands.Range[int, 0, 90]	0	Optional percent removed from the pot before payouts.
bonus_pot	app_commands.Range[int, 0, 2000000000]	0	Optional staff-funded bonus added to the pot immediately.

/lottery info

Show active lottery info for this channel.

/lottery list

List active lotteries in this server.

/lottery history

Show recent completed lotteries in this server.

/lottery bonus

Add a staff-funded bonus to an active lottery pot.

Parameter	Type	Default	What it does
lottery_id	int	required	Lottery ID shown in the lottery embed footer
amount	app_commands.Range[int, 1, 2000000000]	required	Amount to add to the pot

/lottery reroll

Reroll a completed lottery winner who left or needs to be replaced.

Parameter	Type	Default	What it does
lottery_id	int	required	Completed lottery ID to reroll

Parameter	Type	Default	What it does
old_winner	Optional[discord.User]	None	Optional. Previous winner to exclude, especially if they left the server
reason	Optional[str]	'Previous winner is no longer eligible.'	Optional reason shown in the reroll embed

/lottery cancel

Cancel an active lottery and refund all entries.

Parameter	Type	Default	What it does
lottery_id	int	required	Lottery ID shown in the lottery embed footer

12. Teller Time

Teller Time is a 30-minute hosting-slot scheduler for games or giveaways. It has member booking/cancel commands plus staff schedule and public-board administration.

Setup / usage notes

- Configure the public board first.
- Choose which roles are allowed to schedule.
- Staff can view the longer schedule and refresh the public board.

Commands in this category

`/teller times`

Book a 30-minute hosting slot for a game or giveaway.

`/teller cancel`

Cancel a Teller Time booking by ID (your own, unless staff).

Parameter	Type	Default	What it does
booking_id	int	required	The Booking ID shown in your confirmation.

`/teller schedule`

(Staff) View full schedule with a 30-day scroll.

`/teller setup`

(Admin) Configure the public schedule board channel.

Parameter	Type	Default	What it does
board_channel	discord.TextChannel	required	Channel where the public schedule board embed will live.

`/teller board_refresh`

(Admin) Refresh the public schedule board now.

`/teller allow_roles`

(Admin) Choose which roles can schedule Teller Time.

13. Drops

Banker has two drop systems. ATM Drops are Common/Uncommon/Rare/Mythic click-to-collect currency events. Holiday Drops are Small/Medium/Large themed drops with channels, roles, active state, force-spawn, cleanup, and a 38-theme library.

Setup / usage notes

- Configure ATM and Holiday Drops independently.
- Holiday Drops can use up to 10 configured channels.
- The expanded holiday selector uses autocomplete so all themes remain selectable.
- Theme records are isolated so unrelated artwork/text does not carry into another holiday.

Holiday theme library

The current build contains 38 saved themes:

Cinco de Mayo • Independence Day (USA) • Spring • Halloween

Fall • Passover • Memorial Day • Women's History Month

Summer • Juneteenth • Indigenous Peoples' Day • Rosh Hashanah

Eid al-Fitr • Holi • Ramadan • Mother's Day

St. Patrick's Day • Eid al-Adha • Veterans Day • New Year's Celebration

Christmas • Winter • Lunar New Year • Diwali

Mid-Autumn Festival • Earth Day • Martin Luther King Jr. Day • Pride Month

Father's Day • Hanukkah • Labor Day • Día de los Muertos

Easter • Kwanzaa • Mardi Gras / Carnival • Oktoberfest

Thanksgiving • Valentine's Day

Commands in this category

/drop-setup

Enable and configure ATM Drops (Drop + Click to Collect).

Parameter	Type	Default	What it does
common_payout	int	required	Payout for Common drops
uncommon_payout	int	required	Payout for Uncommon drops
rare_payout	int	required	Payout for Rare drops
mythic_payout	int	required	Payout for Mythic drops
spawn_channel	discord.TextChannel	required	Channel where ATM Drops will spawn
ping_role	discord.Role	required	Role to ping when a drop spawns

/atm-drop

Force-spawn an ATM Drop in the configured spawn channel.

/holiday-setup

Configure Holiday Drops for this server.

Parameter	Type	Default	What it does
small	int	required	Payout amount for SMALL Holiday Drop spawns
medium	int	required	Payout amount for MEDIUM Holiday Drop spawns
large	int	required	Payout amount for LARGE Holiday Drop spawns
ping_role	discord.Role	required	Role to ping when the Holiday Drop spawns
active	bool	required	Enable/disable the Holiday Drops feature
staff_role	discord.Role	required	Staff role allowed to run /holiday-setup and /drop

Parameter	Type	Default	What it does
channel_1	Optional[discord.TextChannel]	None	Optional Holiday Drop channel 1
channel_2	Optional[discord.TextChannel]	None	Optional Holiday Drop channel 2
channel_3	Optional[discord.TextChannel]	None	Optional Holiday Drop channel 3
channel_4	Optional[discord.TextChannel]	None	Optional Holiday Drop channel 4
channel_5	Optional[discord.TextChannel]	None	Optional Holiday Drop channel 5
channel_6	Optional[discord.TextChannel]	None	Optional Holiday Drop channel 6
channel_7	Optional[discord.TextChannel]	None	Optional Holiday Drop channel 7
channel_8	Optional[discord.TextChannel]	None	Optional Holiday Drop channel 8
channel_9	Optional[discord.TextChannel]	None	Optional Holiday Drop channel 9
channel_10	Optional[discord.TextChannel]	None	Optional Holiday Drop channel 10

/holiday-active

Enable or disable Holiday Drops and choose a saved holiday theme.

Parameter	Type	Default	What it does
active	bool	required	Turn Holiday Drops on or off while keeping saved payouts, roles, and channels.
theme	Optional[str]	None	Saved holiday theme to use when Holiday Drops are enabled.

/drop

Force a Holiday Drop spawn in this channel.

/holiday-help

Learn how Holiday Drops work (and how to set them up).

/holiday-clean

Delete all Holiday Drops messages created by this bot in this server.

14. Other

Additional commands that do not fit the primary feature categories are listed here.

Commands in this category

`/rumble-list`

List all channels/categories being monitored for rumble payouts.

`/role channel`

Grant a role to the Rumble Royale winner when the win occurs in a specific channel.

Parameter	Type	Default	What it does
role	discord.Role	required	Role to grant to the Rumble Royale winner
channel	Optional[discord.TextChannel]	None	Pick the channel (by name/list) where the win must occur
channel_id	Optional[str]	None	Or paste a channel ID
hide_channel_after_win	Optional[bool]	False	If true, deny View Channel for this winner role in that battle channel

`/role category`

Grant a role to the Rumble Royale winner when the win occurs anywhere in a category.

Parameter	Type	Default	What it does
role	discord.Role	required	Role to grant to the Rumble Royale winner
category	Optional[discord.CategoryChannel]	None	Pick the category (by name/list) where the win must occur
category_id	Optional[str]	None	Or paste a category ID
hide_channel_after_win	Optional[bool]	False	If true, deny View Channel for this winner role in the battle channel they won

`/role prevent-rejoin`

Enable prevent-rejoin for this channel's category.

`/role allow-rejoin`

Disable prevent-rejoin for this channel's category.

`/role clear-channel`

Clear the winner role configured for a specific channel.

Parameter	Type	Default	What it does
channel	Optional[discord.TextChannel]	None	Pick the channel
channel_id	Optional[str]	None	Or paste a channel ID

`/role clear-category`

Clear the winner role configured for a specific category.

Parameter	Type	Default	What it does
category	Optional[discord.CategoryChannel]	None	Pick the category
category_id	Optional[str]	None	Or paste a category ID

`/ping channel`

Save a channel where rumble lobby pings should be sent.

Parameter	Type	Default	What it does
scope	str	required	Channel where the ping should be sent: select from the list or paste the channel ID
ping_role	discord.Role	required	Primary role to ping when the lobby opens
ping_role_2	Optional[discord.Role]	None	Optional second role to ping
ping_role_3	Optional[discord.Role]	None	Optional third role to ping

Parameter	Type	Default	What it does
ping_role_4	Optional[discord.Role]	None	Optional fourth role to ping
ping_role_5	Optional[discord.Role]	None	Optional fifth role to ping

/ping category

Save the current channel as a rumble ping destination for this category rule.

Parameter	Type	Default	What it does
scope	str	required	Optional. Battle category to watch. Leave blank to use this channel's category.
ping_role	discord.Role	required	Primary role to ping when the lobby opens
ping_role_2	Optional[discord.Role]	None	Optional second role to ping
ping_role_3	Optional[discord.Role]	None	Optional third role to ping
ping_role_4	Optional[discord.Role]	None	Optional fourth role to ping
ping_role_5	Optional[discord.Role]	None	Optional fifth role to ping

/next setup

Set up next-channel jump links for a Rumble category.

Parameter	Type	Default	What it does
category	str	required	Rumble category to route through: select from the list or paste the category ID
start_channel	str	required	First channel in the loop: select from the list or paste the channel ID
emoji	Optional[str]	None	Optional emoji to show before the next-channel message

/next disable

Disable next-channel jump links for a Rumble category.

Parameter	Type	Default	What it does
category	str	required	Category to disable: select from the list or paste the category ID

/next view

View saved next-channel jump link setups for this server.

/ping clear-channel

Clear the rumble lobby ping configured for a specific channel.

Parameter	Type	Default	What it does
scope	Optional[str]	None	Optional. Channel to clear. Leave blank to clear this channel.

/ping clear-category

Clear the rumble lobby ping configured for a specific category.

Parameter	Type	Default	What it does
scope	Optional[str]	None	Optional. Category to clear. Leave blank to clear this channel's category.

/ping list

Show saved rumble lobby ping destinations for this server.

/trigger channel

Save a trigger embed for a specific battle channel.

Parameter	Type	Default	What it does
scope	Optional[str]	None	Optional. Battle channel to watch. Leave blank to use this channel.
title	str	'Rumble Trigger'	Embed title
body	str	"	Embed body
footer	str	"	Embed footer
thumbnail_url	Optional[str]	None	Optional thumbnail URL
image_url	Optional[str]	None	Optional image/photo URL 1
image_url_2	Optional[str]	None	Optional image/photo URL 2
image_url_3	Optional[str]	None	Optional image/photo URL 3
image_url_4	Optional[str]	None	Optional image/photo URL 4
image_url_5	Optional[str]	None	Optional image/photo URL 5
color_code	Optional[str]	None	Optional embed color like #7FC128 or 0x7FC128

/trigger category

Save a trigger embed for battles opened anywhere in a category.

Parameter	Type	Default	What it does
scope	Optional[str]	None	Battle category to watch: select from the list or paste the category ID
title	str	'Rumble Trigger'	Embed title
body	str	"	Embed body
footer	str	"	Embed footer
thumbnail_url	Optional[str]	None	Optional thumbnail URL
image_url	Optional[str]	None	Optional image/photo URL 1
image_url_2	Optional[str]	None	Optional image/photo URL 2
image_url_3	Optional[str]	None	Optional image/photo URL 3
image_url_4	Optional[str]	None	Optional image/photo URL 4
image_url_5	Optional[str]	None	Optional image/photo URL 5
color_code	Optional[str]	None	Optional embed color like #7FC128 or 0x7FC128

/trigger preview

Preview the rumble trigger configured for this channel.

/trigger edit-channel

Edit an existing trigger embed for a specific battle channel.

Parameter	Type	Default	What it does
scope	Optional[str]	None	Optional. Battle channel trigger to edit. Leave blank to use this channel.
title	Optional[str]	None	Optional new embed title
body	Optional[str]	None	Optional new embed body
footer	Optional[str]	None	Optional new embed footer
thumbnail_url	Optional[str]	None	Optional new thumbnail URL
image_url	Optional[str]	None	Optional replacement image/photo URL 1
image_url_2	Optional[str]	None	Optional replacement image/photo URL 2
image_url_3	Optional[str]	None	Optional replacement image/photo URL 3
image_url_4	Optional[str]	None	Optional replacement image/photo URL 4
image_url_5	Optional[str]	None	Optional replacement image/photo URL 5

Parameter	Type	Default	What it does
color_code	Optional[str]	None	Optional new embed color like #7FC128 or 0x7FC128

/trigger edit-category

Edit an existing trigger embed for a specific category.

Parameter	Type	Default	What it does
scope	Optional[str]	None	Optional. Battle category trigger to edit. Leave blank to use this channel's category.
title	Optional[str]	None	Optional new embed title
body	Optional[str]	None	Optional new embed body
footer	Optional[str]	None	Optional new embed footer
thumbnail_url	Optional[str]	None	Optional new thumbnail URL
image_url	Optional[str]	None	Optional replacement image/photo URL 1
image_url_2	Optional[str]	None	Optional replacement image/photo URL 2
image_url_3	Optional[str]	None	Optional replacement image/photo URL 3
image_url_4	Optional[str]	None	Optional replacement image/photo URL 4
image_url_5	Optional[str]	None	Optional replacement image/photo URL 5
color_code	Optional[str]	None	Optional new embed color like #7FC128 or 0x7FC128

/trigger clear-channel

Clear the rumble trigger configured for a specific battle channel.

Parameter	Type	Default	What it does
scope	str	required	Battle channel to clear: select from autocomplete or paste the channel ID

/trigger clear-category

Clear the rumble trigger configured for a specific category.

Parameter	Type	Default	What it does
scope	str	required	Battle category to clear: select from autocomplete or paste the category ID

15. Member Command Guide

This section is the quick member-facing guide: commands ordinary members are most likely to use and what they do. Staff/admin-only configuration is intentionally omitted here.

Money & account

`/daily`

Claim your daily currency reward.

`/weekly`

Claim your weekly currency reward.

`/monthly`

Claim your monthly currency reward.

`/work`

Work a shift and earn server currency.

`/beg`

Beg The Banker for a small currency payout.

`/rob`

Attempt to rob currency from another member.

`/account`

View your wallet, protected account, and total net worth.

`/deposit`

Move currency from your wallet into your protected account.

`/withdraw`

Move currency from your protected account back to your wallet.

`/transfer`

Transfer your server currency to another member.

`/wallet`

View a member's balance and inventory in one command.

`/richest`

Show a list of the top 10 richest members in the server.

Shop & collections

`/shop`

Purchase an item from the shop (Qty: 1 per purchase).

`/roles won`

See which Rumble winner roles you have collected and still need.

`/roles leaderboard`

Leaderboard for members with the most Rumble winner roles.

Casino

`/casino blackjack`

Start a Blackjack hand against The Banker using the wager you enter. Use Hit, Stand, or Double Down as the hand progresses. Aces are handled as 1 or 11 as appropriate. The table image changes only when the hand state changes.

`/casino roulette`

Place a wager on the supported European single-zero roulette bet types. The graphical wheel spins to the predetermined result; the animation is presentation and does not alter the selected outcome.

`/casino video-poker`

Play Jacks or Better. Five cards are dealt, you select which cards to HOLD, then Draw replaces the others and evaluates the final poker hand.

`/casino craps`

Play Pass Line or Don't Pass craps. The game establishes and resolves a point according to the implemented rules. Dice graphics update when a new roll is actually needed.

/casino horse-racing

Choose one of six horses at Banker Downs. Odds are shown before the race; the race animation presents the already-determined result.

/casino baccarat

Wager on Player, Banker, or Tie. Banker automatically applies the card-drawing rules and resolves the hand.

/casino money-wheel

Spin the Banker-themed multiplier wheel. The wheel uses a smooth animated presentation, equal-looking visual slices, a pointer aimed toward the wheel, and Spin Again / Change Bet controls. Visual slice size is not the probability table.

/casino high-card

Play the supported High Card / card-prediction modes. The result card remains displayed instead of looping an animation.

/casino sic-bo

Wager on the supported three-dice Sic Bo bet types. The three dice settle on the actual result and remain visible.

/casino stats

Shows the member's casino activity and results across the supported casino games.

/casino cancel

Member recovery command that clears their own stuck or abandoned active Casino game in that server. It does not blindly refund an unverified wager.

Other games

/dicedividend

Play Dice Dividend (up to 3 rolls). 1× per 24 hours.

/dd-leaderboard

Show the Dice Dividend leaderboard for this server.

/loan-shark

Play The Loan Shark (slot machine). One player at a time per server.

/loansharkhelp

Learn how The Loan Shark works: payouts, jackpot rules, and Shark Attacks.

/royale create

Create a Royale Rollers lobby.

/royale bounty

Place a Royale Rollers bounty on a joined lobby player.

/royale start

Start the current Royale Rollers lobby early.

/royale cancel

Cancel the current Royale Rollers lobby or match.

/royale profile

View a Royale Rollers profile.

/royale leaderboard

View the Royale Rollers leaderboard.

/royale rules

Show Royale Rollers rules.

Lottery & scheduling

/lottery info

Show active lottery info for this channel.

/lottery list

List active lotteries in this server.

/lottery history

Show recent completed lotteries in this server.

/teller times

Book a 30-minute hosting slot for a game or giveaway.

/teller cancel

Cancel a Teller Time booking by ID (your own, unless staff).

General

/help

Browse The Banker commands by category.

/donate

Support The Banker and keep the system running strong.

16. Troubleshooting & Recovery

Commands do not appear

Verify the bot was invited with application-command permissions, allow Discord time to sync commands, and inspect startup command-sync errors.

Winner role was not granted

Use `/rumble winner-role-view`. Check the role still exists, Banker has Manage Roles, Banker's role is above the winner role, and winner detection completed.

Rumble Next order is wrong

Use `/rumble-next-view` for the Whole Server route, `/rumble-next-group` view for groups, and `/rumble-next-all` for the full server audit.

Lobby ping is missing

Use the Rumble ping list/audit tools and confirm Banker can mention the configured roles and send messages in the destination.

Casino says an active game already exists

Finish the current game if it still exists. If it is abandoned or missing, use `/casino cancel`. Admins can use `/casino cancel-member` for another member. Stale sessions are also recoverable automatically.

Drop cannot post

Check View Channel, Send Messages, Embed Links, and role-mention permissions in the configured channel.

Discord 429

Discord is rate-limiting requests. Do not repeatedly retry or rapidly edit messages. Current card/dice Casino displays are designed to update only when visible game state changes.

17. Complete Command Directory

The current source contains 137 slash-command endpoints. This directory is exhaustive for the supplied build and is grouped alphabetically by command path.

/account

View your wallet, protected account, and total net worth.

/admin-settings

Owner/Admin: summarize all non-Rumble Banker settings for this server.

/atm-drop

Force-spawn an ATM Drop in the configured spawn channel.

/beg

Beg The Banker for a small currency payout.

/booster-payout

Staff/Admin: set server boost payout amount and (optional) announce channel.

Parameter	Type	Default	What it does
amount	int	required	How much to pay a member when they boost (set 0 to disable)
channel	Optional[discord.TextChannel]	None	Optional: channel to announce boost payouts

/bump-payout

Staff/Admin: set the Disboard bump channel and payout amount.

Parameter	Type	Default	What it does
channel	discord.TextChannel	required	Channel where Disboard posts the 'Bump done!' embed
amount	int	required	How much to pay the member who bumped (set 0 to disable payouts)

/casino baccarat

Wager on Player, Banker, or Tie. Banker automatically applies the card-drawing rules and resolves the hand.

Parameter	Type	Default	What it does
bet	app_commands.Range[int, 1, 1000000000]	required	Amount to wager
side	app_commands.Choice[str]	required	Side to bet on

/casino blackjack

Start a Blackjack hand against The Banker using the wager you enter. Use Hit, Stand, or Double Down as the hand progresses. Aces are handled as 1 or 11 as appropriate. The table image changes only when the hand state changes.

Parameter	Type	Default	What it does
bet	app_commands.Range[int, 1, 1000000000]	required	Amount of server currency to wager

/casino cancel

Member recovery command that clears their own stuck or abandoned active Casino game in that server. It does not blindly refund an unverified wager.

/casino cancel-member

Admin recovery command that clears another member's stuck or abandoned active Casino game in that server.

Parameter	Type	Default	What it does
member	discord.Member	required	Member whose active Casino game should be cleared

/casino craps

Play Pass Line or Don't Pass craps. The game establishes and resolves a point according to the implemented rules. Dice graphics update when a new roll is actually needed.

Parameter	Type	Default	What it does
bet	app_commands.Range[int, 1, 1000000000]	required	Amount to wager
line	app_commands.Choice[str]	required	Choose your line bet

/casino high-card

Play the supported High Card / card-prediction modes. The result card remains displayed instead of looping an animation.

Parameter	Type	Default	What it does
bet	app_commands.Range[int, 1, 1000000000]	required	Amount to wager
mode	app_commands.Choice[str]	required	Choose the card bet

/casino horse-racing

Choose one of six horses at Banker Downs. Odds are shown before the race; the race animation presents the already-determined result.

Parameter	Type	Default	What it does
bet	app_commands.Range[int, 1, 1000000000]	required	Amount to wager

/casino money-wheel

Spin the Banker-themed multiplier wheel. The wheel uses a smooth animated presentation, equal-looking visual slices, a pointer aimed toward the wheel, and Spin Again / Change Bet controls. Visual slice size is not the probability table.

Parameter	Type	Default	What it does
bet	app_commands.Range[int, 1, 1000000000]	required	Amount to wager

/casino roulette

Place a wager on the supported European single-zero roulette bet types. The graphical wheel spins to the predetermined result; the animation is presentation and does not alter the selected outcome.

Parameter	Type	Default	What it does
bet	app_commands.Range[int, 1, 1000000000]	required	Amount to wager
bet_type	app_commands.Choice[str]	required	Outside bet type
number	Optional[app_commands.Range[int, 0, 36]]	None	Required only for Straight Number

/casino settings

Admin configuration for enabling/disabling individual casino games and setting the server minimum and maximum wager.

Parameter	Type	Default	What it does
blackjack	Optional[bool]	None	Enable/disable Blackjack
roulette	Optional[bool]	None	Enable/disable Roulette
video_poker	Optional[bool]	None	Enable/disable Video Poker
craps	Optional[bool]	None	Enable/disable Craps
horse_racing	Optional[bool]	None	Enable/disable Horse Racing
baccarat	Optional[bool]	None	Enable/disable Baccarat
money_wheel	Optional[bool]	None	Enable/disable Money Wheel
high_card	Optional[bool]	None	Enable/disable High Card
sic_bo	Optional[bool]	None	Enable/disable Sic Bo
min_bet	Optional[app_commands.Range[int, 1, 1000000000]]	None	Minimum wager
max_bet	Optional[app_commands.Range[int, 1, 1000000000]]	None	Maximum wager

/casino sic-bo

Wager on the supported three-dice Sic Bo bet types. The three dice settle on the actual result and remain visible.

Parameter	Type	Default	What it does
bet	app_commands.Range[int, 1, 1000000000]	required	Amount to wager
bet_type	app_commands.Choice[str]	required	Type of Sic Bo bet
number	Optional[app_commands.Range[int, 1, 17]]	None	Total (4–17) or single die number (1–6), when required

/casino stats

Shows the member's casino activity and results across the supported casino games.

Parameter	Type	Default	What it does
member	Optional[discord.Member]	None	Use the Discord command prompt for this value.

/casino video-poker

Play Jacks or Better. Five cards are dealt, you select which cards to HOLD, then Draw replaces the others and evaluates the final poker hand.

Parameter	Type	Default	What it does
bet	app_commands.Range[int, 1, 1000000000]	required	Amount of server currency to wager

/clear-wallets

Admin: reset all current server member balances after confirmation.

Parameter	Type	Default	What it does
include_inventory	bool	False	Also clear inventory items for current server members. Defaults to false.

/cooldown-reset

Owner/Admin: reset a member's cooldown for a feature.

Parameter	Type	Default	What it does
member	discord.Member	required	Member to reset
feature	app_commands.Choice[str]	required	Which feature cooldown to reset

/current-settings

Show current Banker settings for this server.

/daily

Claim your daily currency reward.

/dd-leaderboard

Show the Dice Dividend leaderboard for this server.

/dd-payout

Staff/Admin: configure Dice Dividend payouts for this server.

Parameter	Type	Default	What it does
jackpot_5kind	Optional[int]	None	Payout for 5 of a kind
large_straight	Optional[int]	None	Payout for large straight (5 in a row)
four_kind	Optional[int]	None	Payout for 4 of a kind
full_house	Optional[int]	None	Payout for full house (3+2)
small_straight	Optional[int]	None	Payout for small straight (4 in a row)
three_kind	Optional[int]	None	Payout for 3 of a kind
two_pair	Optional[int]	None	Payout for two pair

Parameter	Type	Default	What it does
one_pair	Optional[int]	None	Payout for one pair
bonus_high_total	Optional[int]	None	Bonus for total 25+
bonus_huge_total	Optional[int]	None	Bonus for total 30+
bonus_all_different	Optional[int]	None	Bonus when all five dice are different
bonus_lucky_ledger	Optional[int]	None	Bonus when total equals 7, 17, or 27

/deposit

Move currency from your wallet into your protected account.

Parameter	Type	Default	What it does
amount	str	required	Amount to deposit, or 'all'

/dicedividend

Play Dice Dividend (up to 3 rolls). 1× per 24 hours.

/donate

Support The Banker and keep the system running strong.

/drop

Force a Holiday Drop spawn in this channel.

/drop-setup

Enable and configure ATM Drops (Drop + Click to Collect).

Parameter	Type	Default	What it does
common_payout	int	required	Payout for Common drops
uncommon_payout	int	required	Payout for Uncommon drops
rare_payout	int	required	Payout for Rare drops
mythic_payout	int	required	Payout for Mythic drops
spawn_channel	discord.TextChannel	required	Channel where ATM Drops will spawn
ping_role	discord.Role	required	Role to ping when a drop spawns

/economy-preset

Staff: apply a full economy reward preset.

Parameter	Type	Default	What it does
preset	app_commands.Choice[str]	required	Preset to apply

/economy-set

Staff: configure reward amounts, cooldowns, and rob settings.

Parameter	Type	Default	What it does
command	app_commands.Choice[str]	required	Economy command to configure
min_amount	Optional[int]	None	Minimum payout for daily/weekly/monthly/work/beg
max_amount	Optional[int]	None	Maximum payout for daily/weekly/monthly/work/beg
cooldown_minutes	Optional[int]	None	Cooldown in minutes
enabled	Optional[bool]	None	Enable or disable this command
success_rate	Optional[int]	None	Rob only: success percentage, 0-100
steal_min	Optional[int]	None	Rob only: minimum steal amount
steal_max	Optional[int]	None	Rob only: maximum steal amount
protection_minutes	Optional[int]	None	Rob only: target protection after being robbed
min_wallet_required	Optional[int]	None	Rob only: target must have at least this much

/economy-view

Staff: view configured economy reward amounts and cooldowns.

/give-coins

Staff: give coins to a member.

Parameter	Type	Default	What it does
member	discord.Member	required	Who receives it
amount	int	required	How many coins to give

/give-item

Staff: give a shop item for free.

Parameter	Type	Default	What it does
member	discord.Member	required	Who receives it

/give-role-coins

Staff: give coins to every non-bot member with a specific role.

Parameter	Type	Default	What it does
role	discord.Role	required	Role whose members should receive the coins
amount	int	required	How many coins to give each member

/help

Browse The Banker commands by category.

/holiday-active

Enable or disable Holiday Drops and choose a saved holiday theme.

Parameter	Type	Default	What it does
active	bool	required	Turn Holiday Drops on or off while keeping saved payouts, roles, and channels.
theme	Optional[str]	None	Saved holiday theme to use when Holiday Drops are enabled.

/holiday-cleanup

Delete all Holiday Drops messages created by this bot in this server.

/holiday-help

Learn how Holiday Drops work (and how to set them up).

/holiday-setup

Configure Holiday Drops for this server.

Parameter	Type	Default	What it does
small	int	required	Payout amount for SMALL Holiday Drop spawns
medium	int	required	Payout amount for MEDIUM Holiday Drop spawns
large	int	required	Payout amount for LARGE Holiday Drop spawns
ping_role	discord.Role	required	Role to ping when the Holiday Drop spawns
active	bool	required	Enable/disable the Holiday Drops feature
staff_role	discord.Role	required	Staff role allowed to run /holiday-setup and /drop
channel_1	Optional[discord.TextChannel]	None	Optional Holiday Drop channel 1
channel_2	Optional[discord.TextChannel]	None	Optional Holiday Drop channel 2
channel_3	Optional[discord.TextChannel]	None	Optional Holiday Drop channel 3
channel_4	Optional[discord.TextChannel]	None	Optional Holiday Drop channel 4
channel_5	Optional[discord.TextChannel]	None	Optional Holiday Drop channel 5

Parameter	Type	Default	What it does
channel_6	Optional[discord.TextChannel]	None	Optional Holiday Drop channel 6
channel_7	Optional[discord.TextChannel]	None	Optional Holiday Drop channel 7
channel_8	Optional[discord.TextChannel]	None	Optional Holiday Drop channel 8
channel_9	Optional[discord.TextChannel]	None	Optional Holiday Drop channel 9
channel_10	Optional[discord.TextChannel]	None	Optional Holiday Drop channel 10

/loan-shark

Play The Loan Shark (slot machine). One player at a time per server.

/loansharkhelp

Learn how The Loan Shark works: payouts, jackpot rules, and Shark Attacks.

/log-channel

Owner/Admin: set a log channel for Banker payouts/deductions.

Parameter	Type	Default	What it does
channel	Optional[discord.TextChannel]	None	Channel to send balance logs to (leave empty to disable)

/lottery bonus

Add a staff-funded bonus to an active lottery pot.

Parameter	Type	Default	What it does
lottery_id	int	required	Lottery ID shown in the lottery embed footer
amount	app_commands.Range[int, 1, 2000000000]	required	Amount to add to the pot

/lottery cancel

Cancel an active lottery and refund all entries.

Parameter	Type	Default	What it does
lottery_id	int	required	Lottery ID shown in the lottery embed footer

/lottery create

Open a Banker lottery lobby with button entry and automatic payout.

Parameter	Type	Default	What it does
buy_in	app_commands.Range[int, 1, 2000000000]	required	Currency cost per ticket/entry
winners	app_commands.Range[int, 1, 25]	required	Number of winners to draw
days	app_commands.Range[int, 0, 30]	0	Days until the lottery ends
hours	app_commands.Range[int, 0, 23]	0	Hours until the lottery ends
minutes	app_commands.Range[int, 0, 59]	10	Minutes until the lottery ends
title	Optional[str]	None	Optional lottery title
description	Optional[str]	None	Optional message shown on the lottery embed
ping_role	Optional[discord.Role]	None	Optional role to ping above the lottery lobby
max_entries_per_user	app_commands.Range[int, 0, 100000]	0	Optional cap per user. Use 0 for no limit.
min_entries_required	app_commands.Range[int, 1, 100000]	1	Minimum tickets sold or the lottery refunds instead of drawing.
house_tax_percent	app_commands.Range[int, 0, 90]	0	Optional percent removed from the pot before payouts.
bonus_pot	app_commands.Range[int, 0, 2000000000]	0	Optional staff-funded bonus added to the pot immediately.

/lottery history

Show recent completed lotteries in this server.

/lottery info

Show active lottery info for this channel.

/lottery list

List active lotteries in this server.

/lottery reroll

Reroll a completed lottery winner who left or needs to be replaced.

Parameter	Type	Default	What it does
lottery_id	int	required	Completed lottery ID to reroll
old_winner	Optional[discord.User]	None	Optional. Previous winner to exclude, especially if they left the server
reason	Optional[str]	'Previous winner is no longer eligible.'	Optional reason shown in the reroll embed

/monthly

Claim your monthly currency reward.

/next disable

Disable next-channel jump links for a Rumble category.

Parameter	Type	Default	What it does
category	str	required	Category to disable: select from the list or paste the category ID

/next setup

Set up next-channel jump links for a Rumble category.

Parameter	Type	Default	What it does
category	str	required	Rumble category to route through: select from the list or paste the category ID
start_channel	str	required	First channel in the loop: select from the list or paste the channel ID
emoji	Optional[str]	None	Optional emoji to show before the next-channel message

/next view

View saved next-channel jump link setups for this server.

/ping category

Save the current channel as a rumble ping destination for this category rule.

Parameter	Type	Default	What it does
scope	str	required	Optional. Battle category to watch. Leave blank to use this channel's category.
ping_role	discord.Role	required	Primary role to ping when the lobby opens
ping_role_2	Optional[discord.Role]	None	Optional second role to ping
ping_role_3	Optional[discord.Role]	None	Optional third role to ping
ping_role_4	Optional[discord.Role]	None	Optional fourth role to ping
ping_role_5	Optional[discord.Role]	None	Optional fifth role to ping

/ping channel

Save a channel where rumble lobby pings should be sent.

Parameter	Type	Default	What it does
scope	str	required	Channel where the ping should be sent: select from the list or paste the channel ID

Parameter	Type	Default	What it does
ping_role	discord.Role	required	Primary role to ping when the lobby opens
ping_role_2	Optional[discord.Role]	None	Optional second role to ping
ping_role_3	Optional[discord.Role]	None	Optional third role to ping
ping_role_4	Optional[discord.Role]	None	Optional fourth role to ping
ping_role_5	Optional[discord.Role]	None	Optional fifth role to ping

/ping clear-category

Clear the rumble lobby ping configured for a specific category.

Parameter	Type	Default	What it does
scope	Optional[str]	None	Optional. Category to clear. Leave blank to clear this channel's category.

/ping clear-channel

Clear the rumble lobby ping configured for a specific channel.

Parameter	Type	Default	What it does
scope	Optional[str]	None	Optional. Channel to clear. Leave blank to clear this channel.

/ping list

Show saved rumble lobby ping destinations for this server.

/remove-coins

Staff: remove coins from a member.

Parameter	Type	Default	What it does
member	discord.Member	required	Who loses coins
amount	int	required	How many coins to remove

/remove-item

Staff: remove an item from a member (dropdown, qty=1).

Parameter	Type	Default	What it does
member	discord.Member	required	Who loses the item

/richest

Show a list of the top 10 richest members in the server.

/rob

Attempt to rob currency from another member.

Parameter	Type	Default	What it does
member	discord.Member	required	Member to rob

/role allow-rejoin

Disable prevent-rejoin for this channel's category.

/role category

Grant a role to the Rumble Royale winner when the win occurs anywhere in a category.

Parameter	Type	Default	What it does
role	discord.Role	required	Role to grant to the Rumble Royale winner
category	Optional[discord.CategoryChannel]	None	Pick the category (by name/list) where the win must occur
category_id	Optional[str]	None	Or paste a category ID
hide_channel_after_win	Optional[bool]	False	If true, deny View Channel for this winner role in the battle channel they won

/role channel

Grant a role to the Rumble Royale winner when the win occurs in a specific channel.

Parameter	Type	Default	What it does
role	discord.Role	required	Role to grant to the Rumble Royale winner
channel	Optional[discord.TextChannel]	None	Pick the channel (by name/list) where the win must occur
channel_id	Optional[str]	None	Or paste a channel ID
hide_channel_after_win	Optional[bool]	False	If true, deny View Channel for this winner role in that battle channel

/role clear-category

Clear the winner role configured for a specific category.

Parameter	Type	Default	What it does
category	Optional[discord.CategoryChannel]	None	Pick the category
category_id	Optional[str]	None	Or paste a category ID

/role clear-channel

Clear the winner role configured for a specific channel.

Parameter	Type	Default	What it does
channel	Optional[discord.TextChannel]	None	Pick the channel
channel_id	Optional[str]	None	Or paste a channel ID

/role prevent-rejoin

Enable prevent-rejoin for this channel's category.

/roles leaderboard

Leaderboard for members with the most Rumble winner roles.

Parameter	Type	Default	What it does
scope	app_commands.Choice[str]	required	Show all winner roles or only roles tied to one category
category	Optional[discord.CategoryChannel]	None	Required when scope is Category
limit	Optional[app_commands.Range[int, 1, 25]]	10	How many members to show, default 10

/roles won

See which Rumble winner roles you have collected and still need.

Parameter	Type	Default	What it does
category	Optional[discord.CategoryChannel]	None	Optional: show winner roles from only this Rumble category

/royale bounty

Place a Royale Rollers bounty on a joined lobby player.

Parameter	Type	Default	What it does
target	str	required	Search joined players only
bounty_type	app_commands.Choice[str]	required	Choose how this bounty is claimed
prize_text	str	required	Describe the bounty prize. Host awards manually.

/royale cancel

Cancel the current Royale Rollers lobby or match.

/royale cleanup

Staff/admin: clean up stale Royale Rollers state in this server.

/royale create

Create a Royale Rollers lobby.

Parameter	Type	Default	What it does
mode	app_commands.Choice[str]	required	Choose elimination, duel, lazy elimination, or lazy duel mode
dice_count	app_commands.Choice[int]	required	Choose 2 or 3 dice
prize_text	str	required	Describe the prize(s). Host awards manually.
auto_start	Optional[bool]	True	Auto-start after 10 minutes
elimination_count	Optional[int]	None	Fixed eliminations per round (elimination mode only)

/royale force_advance

Staff/admin: force-resolve the current Royale Rollers round.

/royale leaderboard

View the Royale Rollers leaderboard.

/royale profile

View a Royale Rollers profile.

Parameter	Type	Default	What it does
member	Optional[discord.Member]	None	Optional member to view

/royale rules

Show Royale Rollers rules.

/royale start

Start the current Royale Rollers lobby early.

/rumble grind-setup

Staff/Admin: post the Rumble Grind room launcher for a category.

Parameter	Type	Default	What it does
category	Optional[discord.CategoryChannel]	None	Category where temporary grind rooms should be created
category_id	Optional[str]	None	Optional fallback: paste the category ID if the category selector does not show it
ping_role	Optional[discord.Role]	None	Role to ping when battles start in grind rooms

/rumble leaderboard

Show Rumble Royale win leaderboard by server, category, or channel.

Parameter	Type	Default	What it does
scope	app_commands.Choice[str]	required	Leaderboard scope: whole server, channel, or category
start_date	Optional[str]	None	Optional start date in YYYY-MM-DD format
end_date	Optional[str]	None	Optional end date in YYYY-MM-DD format
minutes	Optional[int]	None	Optional recent timeframe: past X minutes
hours	Optional[int]	None	Optional recent timeframe: past X hours
channel	Optional[discord.TextChannel]	None	Optional channel to filter by
category	Optional[discord.CategoryChannel]	None	Optional category to filter by
channel_id	Optional[str]	None	Optional channel ID if the selector does not show it
category_id	Optional[str]	None	Optional category ID if the selector does not show it

/rumble panel

Open the Rumble Royale control panel.

/rumble reminder

Choose who is pinged after a manual Rumble battle ends.

Parameter	Type	Default	What it does
mode	app_commands.Choice[str]	required	Disabled, ping the battle starter, or ping a configured role

/rumble reminder-role

Set the role pinged after manual Rumble battles in Ping Role mode.

Parameter	Type	Default	What it does
role	discord.Role	required	Role to ping after a manual battle ends

/rumble reminder-view

View this server's Rumble battle-end reminder settings.

/rumble winner-embed

Customize what The Banker shows in Rumble winner embeds.

Parameter	Type	Default	What it does
enabled	Optional[bool]	None	Turn The Banker's custom Rumble winner message on/off
payout	Optional[bool]	None	Show the payout/reward amount on winner embeds
new_balance	Optional[bool]	None	Show the winner's new wallet balance after payout
winner_role	Optional[bool]	None	Show winner role grants on winner embeds
server_wins	Optional[bool]	None	Show how many Rumble wins the user has in this server
global_wins	Optional[bool]	None	Show how many Rumble wins the user has globally
tracked_footer	Optional[bool]	None	Show The Banker's total tracked Rumble count in the footer
image	Optional[discord.Attachment]	None	Optional custom image to display on Rumble winner embeds
image_url	Optional[str]	None	Optional direct image URL (use 'clear' to remove the custom image)
reset	Optional[bool]	False	Reset all options back to showing everything

/rumble winner-role-order

Move a Rumble winner role to a custom position in /roles won.

Parameter	Type	Default	What it does
role	discord.Role	required	Configured Rumble winner role to move
position	app_commands.Range[int, 1, 500]	required	Display position starting at 1

/rumble winner-role-view

Audit Rumble channels and the winner role assigned to each one.

/rumble-list

List all channels/categories being monitored for rumble payouts.

/rumble-next-add

Add a channel to the server-wide Rumble next-channel route.

Parameter	Type	Default	What it does
channel	discord.TextChannel	None	Optional. Leave blank to add the channel where this command is used.

/rumble-next-all

View every channel currently using any Rumble Next route in this server.

/rumble-next-clear

Clear the full next-channel route.

/rumble-next-disable

Disable next-channel routing.

/rumble-next-emoji

Set the emoji/text shown before the next-channel message.

Parameter	Type	Default	What it does
emoji	str	required	Example: 🍷

/rumble-next-enable

Enable next-channel routing.

/rumble-next-group add

Add a channel to an independent route group.

Parameter	Type	Default	What it does
name	str	required	Route group name.
channel	discord.TextChannel	None	Channel to add. Leave blank to use the current channel.

/rumble-next-group create

Create an independent multi-category Rumble Next loop.

Parameter	Type	Default	What it does
name	str	required	Route group name, for example Team Games.

/rumble-next-group delete

Delete an independent route group.

Parameter	Type	Default	What it does
name	str	required	Route group name to delete.

/rumble-next-group emoji

Set the Next-message emoji for one route group.

Parameter	Type	Default	What it does
name	str	required	Route group name.
emoji	str	required	Emoji or short text, for example 🍷.

/rumble-next-group move

Move a channel to a different position inside a route group.

Parameter	Type	Default	What it does
name	str	required	Route group name.
channel	discord.TextChannel	required	Channel to move.
position	int	required	New position, starting at 1.

/rumble-next-group remove

Remove a channel from a route group.

Parameter	Type	Default	What it does
name	str	required	Route group name.
channel	discord.TextChannel	required	Channel to remove.

/rumble-next-group set-start

Make a channel the first channel in a route group.

Parameter	Type	Default	What it does
name	str	required	Route group name.
channel	discord.TextChannel	required	Channel that should be first.

/rumble-next-group view

View named Rumble Next route groups and their channel order.

Parameter	Type	Default	What it does
name	str	None	Optional route group name. Leave blank to view all groups.

/rumble-next-mode

Choose Whole Server routing or separate Category loops.

Parameter	Type	Default	What it does
mode	app_commands.Choice[str]	required	Whole Server uses one route across all categories; Category loops each category within itself.

/rumble-next-move

Move a channel to a route position.

Parameter	Type	Default	What it does
channel	discord.TextChannel	required	Channel to move.
position	int	required	Position number starting at 1.

/rumble-next-remove

Remove a channel from the server-wide Rumble next-channel route.

Parameter	Type	Default	What it does
channel	discord.TextChannel	required	Channel to remove.

/rumble-next-set-start

Make a channel the first/start channel in the route.

Parameter	Type	Default	What it does
channel	discord.TextChannel	required	Starting channel.

/rumble-next-view

View the server-wide next-channel route.

/setup

Configure currency, daily rewards, rumble payout, and staff roles.

Parameter	Type	Default	What it does
currency_name	str	required	What your currency is called (ex: Confused Coin)
currency_emoji	str	required	Emoji for currency (ex: <:coin:123> or 🍀)
daily_amount	int	required	How much members get from /daily
rumble_amount	int	required	How much the winner gets from Rumble Royale
approved_role_1	Optional[discord.Role]	None	Optional staff role #1 that can manage currency and shop
approved_role_2	Optional[discord.Role]	None	Optional staff role #2 that can manage currency and shop

/sharkjackpot-add

Admin: add coins to the Loan Shark jackpot pool.

Parameter	Type	Default	What it does
amount	int	required	How many coins to add to the jackpot pool (must be 1 or more)

/sharksetup

Admin: enable/disable The Loan Shark and select allowed bet amounts.

/shop

Purchase an item from the shop (Qty: 1 per purchase).

/shop-discount

Staff/Admin: set or update a shop discount role. Up to 3 roles per server.

Parameter	Type	Default	What it does
role	discord.Role	required	Role that should receive the discount
percent	int	required	Discount percent to apply at purchase time

/shop-discount-clear

Staff/Admin: remove a shop discount role.

Parameter	Type	Default	What it does
role	discord.Role	required	Discount role to remove

/shop-discount-view

Staff/Admin: view configured shop discount roles.

/shop-stock

Staff/Admin: add an item to the shop.

Parameter	Type	Default	What it does
item_name	str	required	Item name
price	int	required	Price
item_emoji	Optional[str]	None	Optional emoji shown next to the item in the dropdown
description	Optional[str]	None	Optional description

/shop-unstock

Staff/Admin: remove shop items from stock.

/teller allow_roles

(Admin) Choose which roles can schedule Teller Time.

/teller board_refresh

(Admin) Refresh the public schedule board now.

/teller cancel

Cancel a Teller Time booking by ID (your own, unless staff).

Parameter	Type	Default	What it does
booking_id	int	required	The Booking ID shown in your confirmation.

/teller schedule

(Staff) View full schedule with a 30-day scroll.

/teller setup

(Admin) Configure the public schedule board channel.

Parameter	Type	Default	What it does
board_channel	discord.TextChannel	required	Channel where the public schedule board embed will live.

/teller times

Book a 30-minute hosting slot for a game or giveaway.

/transfer

Transfer your server currency to another member.

Parameter	Type	Default	What it does
member	discord.Member	required	Who receives the currency
amount	int	required	How much to transfer

/trigger category

Save a trigger embed for battles opened anywhere in a category.

Parameter	Type	Default	What it does
scope	Optional[str]	None	Battle category to watch: select from the list or paste the category ID
title	str	'Rumble Trigger'	Embed title
body	str	"	Embed body
footer	str	"	Embed footer
thumbnail_url	Optional[str]	None	Optional thumbnail URL
image_url	Optional[str]	None	Optional image/photo URL 1
image_url_2	Optional[str]	None	Optional image/photo URL 2
image_url_3	Optional[str]	None	Optional image/photo URL 3
image_url_4	Optional[str]	None	Optional image/photo URL 4
image_url_5	Optional[str]	None	Optional image/photo URL 5
color_code	Optional[str]	None	Optional embed color like #7FC128 or 0x7FC128

/trigger channel

Save a trigger embed for a specific battle channel.

Parameter	Type	Default	What it does
scope	Optional[str]	None	Optional. Battle channel to watch. Leave blank to use this channel.
title	str	'Rumble Trigger'	Embed title
body	str	"	Embed body
footer	str	"	Embed footer
thumbnail_url	Optional[str]	None	Optional thumbnail URL
image_url	Optional[str]	None	Optional image/photo URL 1
image_url_2	Optional[str]	None	Optional image/photo URL 2
image_url_3	Optional[str]	None	Optional image/photo URL 3
image_url_4	Optional[str]	None	Optional image/photo URL 4
image_url_5	Optional[str]	None	Optional image/photo URL 5
color_code	Optional[str]	None	Optional embed color like #7FC128 or 0x7FC128

/trigger clear-category

Clear the rumble trigger configured for a specific category.

Parameter	Type	Default	What it does
scope	str	required	Battle category to clear: select from autocomplete or paste the category ID

/trigger clear-channel

Clear the rumble trigger configured for a specific battle channel.

Parameter	Type	Default	What it does
scope	str	required	Battle channel to clear: select from autocomplete or paste the channel ID

/trigger edit-category

Edit an existing trigger embed for a specific category.

Parameter	Type	Default	What it does
scope	Optional[str]	None	Optional. Battle category trigger to edit. Leave blank to use this channel's category.
title	Optional[str]	None	Optional new embed title

Parameter	Type	Default	What it does
body	Optional[str]	None	Optional new embed body
footer	Optional[str]	None	Optional new embed footer
thumbnail_url	Optional[str]	None	Optional new thumbnail URL
image_url	Optional[str]	None	Optional replacement image/photo URL 1
image_url_2	Optional[str]	None	Optional replacement image/photo URL 2
image_url_3	Optional[str]	None	Optional replacement image/photo URL 3
image_url_4	Optional[str]	None	Optional replacement image/photo URL 4
image_url_5	Optional[str]	None	Optional replacement image/photo URL 5
color_code	Optional[str]	None	Optional new embed color like #7FC128 or 0x7FC128

/trigger edit-channel

Edit an existing trigger embed for a specific battle channel.

Parameter	Type	Default	What it does
scope	Optional[str]	None	Optional. Battle channel trigger to edit. Leave blank to use this channel.
title	Optional[str]	None	Optional new embed title
body	Optional[str]	None	Optional new embed body
footer	Optional[str]	None	Optional new embed footer
thumbnail_url	Optional[str]	None	Optional new thumbnail URL
image_url	Optional[str]	None	Optional replacement image/photo URL 1
image_url_2	Optional[str]	None	Optional replacement image/photo URL 2
image_url_3	Optional[str]	None	Optional replacement image/photo URL 3
image_url_4	Optional[str]	None	Optional replacement image/photo URL 4
image_url_5	Optional[str]	None	Optional replacement image/photo URL 5
color_code	Optional[str]	None	Optional new embed color like #7FC128 or 0x7FC128

/trigger preview

Preview the rumble trigger configured for this channel.

/wallet

View a member's balance and inventory in one command.

Parameter	Type	Default	What it does
member	Optional[discord.Member]	None	Optional: view someone else's wallet (staff only)

/weekly

Claim your weekly currency reward.

/withdraw

Move currency from your protected account back to your wallet.

Parameter	Type	Default	What it does
amount	str	required	Amount to withdraw, or 'all'

/work

Work a shift and earn server currency.

Glossary & Page Index

This replaces the old definition-only glossary. Entries below tell you where to find the feature or command in this manual. Commands may appear twice: once in their explanatory category and again in the Complete Command Directory.

THE BANKER — MANUAL UPDATE

October 2026 | Currency controls, Rumble winner announcements, and ROLL OR DIE

This supplement updates the existing complete administrator manual. The original chapters and page index remain available; the new commands and behavior are documented here. Features described below reflect the recent bot update packages and should be tested after deployment.

Currency Administration — Server Administrators

Command	What it does
<code>/currency disable</code>	Disables rewards through the main wallet paths without erasing balances. Some legacy direct database payouts may still require separate configuration.
<code>/currency enable</code>	Restores rewards through the main wallet paths.
<code>/currency reset</code>	Requires confirmation, then resets wallet balances in the server's economy. Back up <code>banker.db</code> first; shared economies may affect multiple servers.

Before resetting: back up `banker.db`, confirm whether economies are shared, and resolve outstanding currency escrow. A wallet reset does not necessarily erase inventories, statistics, or transaction history.

Rumble Winner Announcement Controls

`/rumble-winner-message disable` — Suppresses The Banker's custom Rumble winner announcement. It does not turn off Rumble win tracking, configured payouts, or winner roles.

`/rumble-winner-message enable` — Restores the custom Rumble winner announcement.

These are independent from currency settings. The existing **`/rumble winner-embed`** configuration remains available for customizing announcement content.

ROLL OR DIE — Game & Hosting

ROLL OR DIE replaces the former Royale Rollers branding. Game types are Last One Standing and Head-to-Head; each offers Player Rolls (up to three attempts, best score) and Auto Rolls (Banker rolls automatically).

For two-dice games, doubles can earn a Life; for three-dice games, triples can earn a Life. A Life can prevent score-based elimination, but not AFK elimination. Random modifiers also affect rounds.

`/roll-or-die create` creates a lobby with mode, dice, prize, claim instructions, duration, eliminations, and up to 10 ping roles. Lobbies update their fighter rosters and send five-minute reminders plus a one-minute Last Call.

`/roll-or-die host-role-add`, **`host-role-remove`**, and **`host-roles`** manage designated host roles. Server admins retain access.

ROLL OR DIE — Scheduling & Leaderboards

`/roll-or-die schedule` creates recurring lobbies. **`/roll-or-die schedules`** opens a schedule selector for previewing, editing the next lobby time, duration, recurrence, and custom lobby message, or deleting a schedule. **`/roll-or-die schedule-remove`** provides a selection-based removal flow without requiring the numeric ID.

`/roll-or-die leaderboard` provides paginated rankings with wins, rank points, finals appearances, and streaks.

ROLL OR DIE — BOUNTIES & PAYMENTS

Placing a Bounty

During an open lobby, select **Place Bounty**, choose a participating fighter (including yourself), then choose a condition appropriate to the game mode.

Last One Standing: Elimination Bounty (lowest surviving fighter above the cut claims it); Champion Claims (the eventual champion claims if the target loses).

Head-to-Head: Beat the Target (defeat the target directly); Champion Claims (the champion claims if the target loses).

Prize Types

Server Currency: The Banker verifies available wallet funds, withdraws the amount into bounty escrow, and pays the winning claimant automatically. If voided, escrow is refunded. Public receipts describe the payout or refund.

Other Prize: The placer must affirm they can provide the prize. If claimed, they must deliver it within two hours of the game's end. The Banker DMs the placer and recipient with a link to the public bounty receipt.

Confirming External Prize Delivery

The placer receives **Mark as Sent**; the recipient receives **Mark as Received**. These actions update the public bounty receipt with Pending, Sent (awaiting recipient confirmation), or Received status. Server-currency payouts are automatic and do not require these buttons.

Winner Announcements

The champion receives a winner graphic and a private message containing prize details, claim instructions, and a link to the result. Bounty results and payment obligations appear in public receipts.
