Director's Statement

The overturning of Roe v. Wade is a layered issue that affects everyone. I wanted to show how, from a point of view that is the last to be expected. In addition, I needed to show another area that constitutes as an abortion that surprised myself when looking deeper into the issue.

A man and a woman are lying in bed, looking distressed. The man is on the left, looking down with a sad expression. The woman is on the right, looking up with a sad expression. They are both wearing white tank tops. The background is a plain wall.

Although this is Andres' nightmare, this is the current reality for over 67 million Americans. On June 24, 2022 the United States Supreme Court overturned Roe v. Wade the landmark case that made access to an abortion a federal right in the U.S.

Almost immediately, 12 states including Texas outlawed abortion. The banning of abortion in these 12 states impacts over 69 million Americans. Another 11 states severely restricted abortion access. Restricting and outlawing abortion doesn't just impact women.

It impacts us all.
