

Sea Dweller

What are the standards of selection?

Only the finest, highest quality watches are hand selected and sourced worldwide by a team of expert buyers.

Each pre-owned independently certified watch must meet stringent criteria, and bracelets must have less than 20% - 25% wear.

Own with Confidence

Third party independent certification, including full disclosure of which parts have been enhanced, is provided to ensure authenticity and adherence to strict high quality standards.

Each watch is presented in green leather hand sewn boxing accompanied by complete certification documents.

How can I be sure the watch is genuine?

All watches are disassembled down to the main dial plate to confirm authenticity. In addition, third party independent certification is included, which verifies the watch model number and serial number.

*Day-Date
Presidential*

What kind of replacement parts are used if needed?

Only new, genuine Rolex parts are used to replace worn internal and external parts (except crystal) for proper functionality of the timepiece.

How can I be certain of the quality?

Every watch undergoes an extensive quality control process at every stage of handling, before and after independent certification, and is additionally re-checked prior to shipping.

Explorer II

Which parts are replaced?

All watch crystals are replaced with brand new non-factory sapphire crystals to ensure perfect like-new appearance. All seals and gaskets are replaced and watches undergo pressure and vacuum testing to ensure water resistance for years to come.

*Diamond
Datejust*

What are the watch features?

Constructed of stainless steel and 18k gold, all of the watches feature 29 or 31 jewel automatic perpetual movement. In addition, only SI quality or better diamonds are used on watch dials and bezels.

Is there a warranty?

All of the Pre-owned Independently Certified Rolex watches come complete with a limited liability warranty, covering full mechanics for two years from date of sale.

Who works on the watches?

The team of expert technicians working with the pre-owned independently certified Rolex timepieces are certified as fine watchmakers with CW21 credentials (www.awci.com). This is the most widely known and reputedly accredited certification available worldwide.

*Ladies' Diamond
Datejust*

What work is done to each watch?

Each watch goes through a complete overhaul. Quality control tests are conducted to verify authenticity. Accuracy of time is verified on an electronic time graph. Pressure testing takes place on a Witschi ChronoProof® machine to ensure water resistance. All gaskets and necessary parts are replaced. Every watch is serviced by CW21 certified watchmakers and then polished.

Datejust
